yellowish brown, shading to pale coppery flesh color.

# THE KRIDER NURSERIES

INCORPORATED

## MIDDLEBURY, INDIANA, U. S. A.

# Foreword

*"For Those Who Realize  
the Value of Quality"*

For thirty-six years—ever since The Krider Nurseries were established—it has been our wish that all our friends and customers might visit our nursery and that we might show you not only the home and beautiful surroundings of our nursery but the magnificent, fresh stock of plants, trees, and shrubs that make Krider's the envy of every nursery in America. Every order is handled individually, in order that you will receive the BEST that money can buy.

Thousands do visit our nursery and we extend to all of you an invitation to drive in. We have 420 acres in one block at Middlebury, Indiana. Our office is three blocks from the center of the village and we have laid out six miles of drives through our nursery. You can drive your car past millions of shrubs and evergreens in full bloom and beauty. Acres of roses and acres of phlox in bloom in season. Rest and eat your lunch in the old mill which marks the entrance to our nursery. A table and seats are provided and the water which turns the old wheel is as pure as nature provides.

You will enjoy both taste and sound. You will also enjoy the model rockery and lily pool at the same spot. You will enjoy an afternoon with us and a cordial welcome awaits you.

But such a trip being impractical to the vast majority of you we are doing the next best thing; we are sending you facsimiles of the fruit and flowers we grow. We are presenting you a catalog which not only brings form and color to your vision, but those more subtle qualities—the appetizing plumpness of the apple, the luscious quality of the peach, the juiciness of the berry, and the glorious shadings of the colorful rose. In all respects, save perfume—and by the grace of the imagination you may have even that in these pages—you will have in this catalog a literal presentation of what your garden and orchard may produce from our stock. We guarantee our flowers to be exactly as colored and nature is better than any artist we have ever seen. We have never been able to get our roses and flowers on paper as beautiful as nature colored them.

## GUARANTEE

The Krider Nurseries, Inc., guarantee that each plant, shrub, and tree shall be of a size and quality as shown in this catalog and that it will reach customer in good growing condition. The company will replace free of charge any stock not in good condition when it reaches customer upon receipt of freight or express bill properly signed by the agent with a notation of the loss or damage entered thereon.

The Krider Nurseries guarantee all parcel post shipments to reach customer in good condition but complaints must be made **WITHIN FIVE DAYS AFTER GOODS ARE RECEIVED.**

The company further agrees to replace at one-half regular catalog price any shrub or tree dying during the first year after planting provided written report is made before October 1st following date of purchase.

The company further guarantees that every plant, shrub, or tree is true to name and will replace free of charge or refund purchase price of any proven not to be so, but it is mutually agreed between purchaser and ourselves that we will not be held for any greater amount than the original purchase price.

It is only by a comparison of the hardy, thrifty, sure-to-bear stock with weak, inferior plants that will dwindle and pine away and finally "peter out" that you can be convinced of the meaning of the phrase, **"for those who realize the value of quality"**.

It means success instead of failure, it means satisfaction instead of disappointment. It means the joy of achievement and success, whether it be a rose, a rock garden or a whole orchard.

Krider's hardy northern grown, **true-to-name** stock will please you. The best is none too good. Don't waste years of time on inferior stock when just a few cents means the difference between vigor and weakness.

For thirty-six years we have served you. We have grown from small to big. Our vigorous stock has undoubtedly appealed to you or you would not have re-ordered again and again as many of our old customers do from year to year. You have told others, our best advertisement.

Look over our prices. They are as low as good stock can sell for and we believe that they are lower than they will be in years to come. We call your attention to the fact that, notwithstanding 20 percent advance in labor and an added sales tax, we have maintained the same price set a year ago.

## Special Premiums for Early Orders

As a rule most people wait until the first warm, sunshiny days of spring before they begin to think of ordering trees, plants and vines. Then they all send in their orders at one time, and to take care of these orders promptly we have to employ extra clerks and packers. If we can induce part or all of our patrons to send in their orders early we can distribute this work over a longer period of time and not only handle the orders better, but with a much smaller force of men and women. This means a considerable saving of time and money to us, and is the one and only reason we can make the liberal premium offer as set forth below.

**REMEMBER THE DATE BEFORE THIS OFFER EXPIRES**

For all spring orders amounting to \$5.00 received before March 15th, we will allow you to select \$1.00 worth of any fruit or shrubbery listed in our catalog. For all orders amounting to \$10.00 we will allow you to select \$2.00 worth. For all \$20.00 orders, \$4.00 worth, and for all \$50.00 orders, \$12.00 worth; for all \$100.00 orders, \$25.00 worth.

We show many \$2.00 items in rare roses and ornamentals. Any one of these \$2.00 items may be selected as a premium with a \$10.00 order up until April 1st, 1934 in place of above which expires March 15th.

## General Information

**LOCATION.** Our plant is located at Middlebury, Ind. Here we have our offices and 410 acres of as fine nursery growing land as can be found. We are on U. S. 20 from Boston to Chicago, half way between Lagrange, Ind., and Elkhart, Ind. Ten miles northeast of Goshen, Ind., and 12 miles south of U. S. 112, which you leave at White Pigeon, Michigan. Indiana 13 passes through our grounds.

**ORDERING.** In ordering be sure to state how you want your orders sent and give your express office. Order early. On all orders of one dollar or more received before March 10th, we will add a Rambler Rose as a premium, providing you mention it in your order.

**SUBSTITUTION.** We do not substitute unless requested. When you place your order here you get what you want or **your money back.**

**REFERENCES.** First State Bank, Middlebury, Indiana; Elkhart County Trust Company, Goshen, Indiana, or any bank or business house in Elkhart County.

**SHIPMENT.** We commence to ship about March 10th, weather being favorable, and shipping season lasts until June 1st. We ship order any week you designate in your letter, weather being favorable. We have every means at hand to have your stock reach you in the best condition. We can make shipment South in February if desired, on roses, shrubs and fruit trees.

**TERMS.** Cash before order is shipped. We will book orders when one-fourth cash accompanies the order, balance to be paid before stock is shipped.

**CLAIMS.** All claims for shortage must be made inside of ten days after goods are received. If stock is not satisfactory, complaint must be made at once. No attention will be paid to claims received months after the goods have been received.

**PARCEL POST.** Everything contained in this catalog that is of light measure, is sent to you parcel post and all prices on bargain offers, rose collections, shrubs, etc., are quoted parcel post paid. Please note that on everything in this catalog except heavy trees, balled evergreens, the prices are given postpaid if you so desire, so there is no reason for not knowing just what the stock will cost you laid down at your door.

**REMITTANCES.** Make same by express money order, post office order, draft or registered letter. Checks from responsible persons are also taken. Please do not send stamps and please see that all orders are for at least one dollar.

Dear Customers and Visitors:

We are setting forth on this page a reproduction of our Mountain Stream Rockery, which was the most admired of all of our exhibits at the Horticultural Building at the World's Fair. Ten thousand friends each week left their names and addresses for this catalog at the table marking this exhibit.

In addition to landscaping the Horticultural Building we exhibited four gardens, a Model Rockery shown below, a Terrace Garden, and a Restful Garden inside the building, a Chrysanthemum Garden bordered with Boxwood on the grounds. All of our exhibits will be featured in a four color folder next summer, with a planting guide, giving names and prices of all items used in our exhibit. It will be free upon request.

We are calling your attention to the prices which we are giving in our 1934 catalog. We are able to quote these low prices again because practically everything grown and offered in this catalog has been grown out of the profits of previous years. We are far below competitive prices, which you will recognize.

We have built our business to one of the largest in the country upon the sound principle of fair dealing and this policy will never be altered. I promise you this year the greatest bargains on quality merchandise you have ever been able to get. Consequently this is the spring to buy.

Thanking all of our customers for past favors and assuring you that if you ever received anything from us that was not satisfactory we would be glad to know it, we are

Sincerely yours,

THE KRIDER NURSERIES, INC.

Middlebury, Ind.  
Attention: Vernon H. Krider  
Gentlemen:

If finer nursery stock in general is grown than I have had the privilege of looking over in a number of visits to your place, I have failed to find it. I think you are to be congratulated on the way in which you handle your stock.

Very truly yours,  
ANTHONY KUNDERD.

**OLYMPIAD**

Very large cerise-red and crimson bloom on a heavy pedestal of gold. A flashy combination of colors.

**F. R. PIERSON**

A new red Rose of great merit. A beautiful bud that surpasses Etoile de Hollande.

**JOANNA HILL**

Very double bloom with Indian yellow center, surrounded by bold, buff petals.

**CALEDONIA**

Large, pointed, pure white bud on long stem. Large, full, fragrant and healthy. The best white.

**BETTY UPRICHARD**

Semi-double salmon-pink flowers stained with copper-pink on the outside. A novelty Rose.

**DR. ECKENER**

A red Talisman. This is a Rugosa Rose; extremely hardy. Red blooms on a yellow base; handsome. New.

**The Charm  
of vivid colors**  
Characterizes these gorgeous varieties

**Collection "C"**

# 3 Perfectly Hardy Rambling ROSES

America's  
Favorites

Illustrated Below

All 3  
for only **75¢**

Postpaid

Primrose.

Staechelín  
Primrose  
Paul's  
Scarlet

America's  
Favorite  
Climbing  
Roses

Mme. Gregoire Staechelín.

## Primrose

A pure yellow, hardy climbing Rose. Its large, double flowers are a soft, rich primrose-yellow, and are borne in clusters of 4 and 5 on an extremely vigorous plant, with beautiful foliage. Very new and we believe the most satisfactory yellow climber for the North.

**Field-grown, 50c each, postpaid.**

## Mme. Gregoire Staechelín

"The Spanish Beauty". Today's wonder Rose. Delicious fragrance—quite rare in hardy climbers. A choice cut flower—also unique in its class; tight bud long-pointed, opening bud urn-shaped, full blown flower semi-double, cup-shaped, and broad to five inches; the cutting stem 12 to 15 inches long. The color is charming, in vase or on the vine; maroon in the bud, carmine to pearly pink as the perfumed petals unfold. Just one glorious month of bloom, but even that is unusual; each stem displaying its three to five flowers one at a time. The foliage is olive-green, leathery and plentiful. 12 feet of growth a year; two years to the roof. Europe gave it the supreme Bagatelle gold medal in '27, America the John Cook medal in '29. You can get it from us, to use on pillar, trellis, or fence. 50c each, postpaid.

## Paul's Scarlet Climber

An entirely new variety, combining vigorous growth, wonderful foliage, and absolute hardness, together with flowers almost as large as those produced on bush Roses; in color a brilliant scarlet which lasts well. Each 50c.

**CLIMBING AMERICAN BEAUTY.** Flowers of large size, good form, of rich, red color passing to crimson. Very fragrant. Good foliage and absolutely hardy.

**DOROTHY PERKINS.** Beautiful shell-pink, which holds for a long time, shading to a lovely deep rose. Very sweetly scented, hardy and a strong grower.

**DR. W. VAN FLEET.** This new Rose has a great future. In flower and foliage it is all that could be expected of a climbing Rose. Blossoms extra large, resembling the tender Hybrid Tea Roses in shape and size. Its strong stems are 12 to 18 inches long, making it valuable for cutting. In color a delicate flesh-pink changing when full blown to a flesh-white shade.

**CRIMSON RAMBLER.** One of the most popular of the climbers. A rapid grower and perfectly hardy; flowers in rich clusters of vivid crimson. One-year plants will attain a height of 10 to 20 feet in a single season and the second year they will produce a marvelous profusion of their rich glowing crimson flowers.

**Prices of Climbing Roses—All Varieties:**  
2-yr., 25c each; 5 for \$1.00, postpaid.

Paul's Scarlet Climber.

Baby Ramblers in Solid Bed.

## Baby Ramblers and Polyantha Roses

**Orleans.** Deep cerise or geranium-pink with center of pure white. The showiest of the Baby Ramblers.

**2-yr., 50c each; 3 for \$1.00, postpaid.**

**Verdun.** The newest creation of Baby Ramblers. Intense red color. One of the finest Baby Ramblers ever introduced. **2-yr., 50c each; 3 for \$1.00, postpaid.**

## Rugosa and Hybrid Rugosa Roses

The Rugosa Rose was introduced from Japan years ago. It is absolutely hardy, with fine, thick, heavy foliage. But the flowers are single.

By crossing the Rugosa Rose with the best of the double, everblooming varieties, a new race has been developed in which are retained the fine, vigorous growth, the extreme hardiness, the abundant and lasting dark green leaves of the Rugosa type, combined with the size and color of the best everblooming Roses.

**F. J. Grootendorst.** A cross between Rosa Rugosa and Baby Rambler, retaining all the vigor, hardiness, and healthy foliage of the Rugosa. Fine red blooms. The only hardy and everblooming hedging or massing Rose, and for these purposes it is ideal. **Each, 35c; 3 for \$1.00, postpaid.**

**Conrad Ferdinand Meyer.** Strong grower, perfectly hardy. Flowers silvery rose, large, well filled, very fragrant. **2-yr., 35c each; 3 for \$1.00, postpaid.**

Hugonis Rose.

## Special New Varieties of Baby Ramblers

**Lafayette** Loose clusters; its individual flowers 3 inches wide, semi-double and prettily ruffled, strung together in great branching sprays of as many as forty. Brilliant cherry-crimson color. **50c 2-yr., postpaid**

**Gloria Mundi** This new variety is probably the best and most generally satisfactory of all the orange-scarlet Polyanthas recently introduced. Its color certainly is emphatic, clear and uniform, and comparatively unfading. The petalage is fully double, with many good sized florets in each cluster. **2-yr., postpaid..... 50c**

**Golden Salmon** A recent novelty, and one of the most attractive. The flowers are large, semi-double, thickly clustered, and never missing throughout the entire season. Color a beautiful red-salmon overlaid with a sheen of orange and gold, the light eye daintily conspicuous. **50c 2-yr., postpaid**

**Above three postpaid for \$1.00**

F. J. Grootendorst.

## Eskimo Beauties

**Each, 35c; 3 for \$1.00, postpaid.**

The Roses that grow where no others will. Hybrid Rugosa Roses in which are combined the best qualities of the different Rose species.

**Belle Poitevine** (An Eskimo Beauty). The blooms are large and full, the petals gracefully incurved. Bright, clear, lively pink.

**Sir Thomas Lipton** (An Eskimo Beauty). Pure white; no tinge of pink or yellow—just plain white. The flowers are very double and borne in graceful clusters.

**Hansa** (An Eskimo Beauty). Handsome in bud and bloom. Both are large, very full and double. The color is rich maroon-red.

## SPECIAL

**Hugonis** (The Golden Rose of China). Blooms three weeks earlier than most other Roses. Hugonis has proved hardy everywhere in the United States, a shrub-rose of countless uses—splendid for specimens, popular in shrubbery plantings, handsome for hedges. Still more in its favor, it's beautiful—great golden, hollyhock-like flowers of clear yellow on maroon colored canes in May. Such a dazzling display in front of your place. **Each, 2-yr., 50c; 3 for \$1.00, postpaid.**

# of ROSES

## Roses with Lovely Characteristics

### COLLECTION "H"

3 Roses decidedly different and decidedly beautiful

for Only \$1.25 Post-paid

This Collection Consists of:

Rev. F. Page-Roberts  
Souv. de Georges Pernet  
Mme. Albert Barbier

MME. ALBERT BARBIER.

A magnificent new variety of fully double formation, great freedom and extra long blooming season. Pearl-white suffused with blush pink, the golden apricot glow from the base and center richly illuminating. It blooms without ceasing from spring to autumn and is bound to become exceedingly popular. Each, \$1.00.

REV. F. PAGE-ROBERTS.

A splendid, vigorous growing bush Rose, carrying its superb, sweetly scented flowers erect on long, stiff stems. The color, copper-red going to golden yellow with the outside of the petals a reddish tint. Flowers very large and double, highly fragrant. Each, \$1.00.

HERE is your opportunity to get Krider's loveliest of all garden Roses. 12 choice everbloomers—2-year, field-grown, hardy, heavy rooted plants pruned ready for planting, delivered to you postpaid, safe arrival guaranteed. Only \$2.50. Never before AN OFFER like this. Here is a bargain we have never seen duplicated anywhere. Just think—12 of America's best everblooming Roses, all colors, reds, pinks, whites, yellows, flame colored. Beautiful beyond words. Priced at 50c to \$1.00 each, chosen for you from the several collections in our catalog. Each Rose labeled and each collection made up of equal amounts of colors.

*Freeland, Maryland,*

*Last spring we purchased fifty Phlox and they were perfectly beautiful. You sent more than fifty. Every one grew, but two, and we were so very grateful.*

MRS. JOHN B. NELSON

## KRIDER'S "Glory Mixture" OF ROSES

The Supreme Offer of 1934

### 12 Roses

Named and labeled  
All Different, **\$2.50**  
FOR ONLY Postpaid

While this collection does not give you your own choice of varieties, it will consist of our regular standard 2-year-old field-grown Roses in balanced colors.

SOUV. DE GEORGES PERNET.

Stout, branching plant with large, brick-red buds opening to pink flowers of gigantic size. A splendid bedding Rose. Each, 75c.

# Shrubs for the Shade

**2-year, field-grown, 2 to 3 ft., 35c each; 3 for \$1.00; 10 for \$2.50, postpaid. 3 to 4 ft., 8 for \$1.00, not prepaid.**

## The Three Best Shrubs and Most Admired

### Beauty Bush (*Kolkwitzia amabilis*)

A wonderful new, and as yet, very rare ornamental shrub, originating in the wilderness of China. Lovely and graceful, and finer than any Weigela ever offered. Covered early in May with the utmost profusion of bloom. The individual flowers are rather small, lipped something like a foxglove, clear pink with brownish spots and veins. The flowers are produced along the entire length of the branches in clusters at the ends of the short, leafy shoots, and are borne in such profusion that the bush is one cloud of delicate pink. The tiny rose colored buds are fascinatingly hooded with fuzzy jackets which remain to decorate the seed pods. The graceful habit of the bush, its year-round beauty in foliage and habit, its free flowering qualities and pleasing color, combined with perfect hardiness make this one of the most beautiful and useful shrubs.

Beauty Bush.

Korean Spirea.

### Korean Spirea (*Spirea trichocarpa*)

This handsome new shrub was discovered in Korea, and has been enthusiastically admired by all who have seen it since its introduction in America, and has been acclaimed the best of all the Spireas. It is a splendid, healthy plant, growing, when matured, 4 to 6 feet tall, and even greater in diameter, forming a big, dome-shaped bush covered in its season with large, rounded clusters of snowy flowers marked with darker eyes. It is hardy as far north as Montreal, and is most attractive in habit and foliage, even when not in bloom. It is more robust and blooms 2 weeks later than the familiar Spirea Van Houttei, and is far more desirable. It retains its beautiful glossy green foliage late into the autumn.

### Symphoricarpos Chenaulti (New Red Snowberry)

This new Red Snowberry is the greatest shrub for shady places that we have ever seen introduced. It grows to a height of 4 feet. Has long branches covered with lacy leaves, the branches of which in turn are covered in late fall with a mass of glowing red berries twice the size of the old Indian Currant and as red as High Bush Cranberry. Don't fail to plant some of these shrubs in your shady location.

We can also furnish the following shrubs for shady places. Too well known to need description; at 25c each; \$2.00 per 10, postpaid, in 2-yr., 18 to 24 in. plants.

Barberry, Japanese .....	Berberis Thunbergi.
Coralberry .....	Symphoricarpos vulgaris.
Dogwoods .....	Cornus alba, paniculata, stolonifera.
Hollygrape, Oregon .....	Mahonia aquifolium.
Honeysuckle, Fragrant .....	Lonicera fragrantissima.
Pachysandra .....	Pachysandra terminalis.
Privet .....	Ligustrum, various.
Snowberry .....	Symphoricarpos racemosus.
Spirea .....	Spirea, various.

Red Snowberry.

Dear Sir:

Conklin, Mich., April 11, 1933.

Got my nursery stock all O. K. and everything is fine. Thank you very kindly.

Yours respectfully, MRS. H. GRAFTEMA.

# Shrubs With Attractive Fruits for the Birds

High Bush Cranberry.

## White Snowberry (*Symphoricarpos racemosus*)

Inconspicuous, rose colored flowers in June and July, followed by large, clustered, milk-white fruits which remain far into winter. This combination of pink flowers and white berries on the same twig is charming. Bush is compact in form with numerous slender, twiggy branches. Can be used in small groups in large mass and border plantings, and kept in the foreground on account of its dwarfish habit. The Snowberry will give success in a shady location as well as a sunny spot.

White Snowberries.

2-yr., field-grown, 2 to 3 ft., 35c each; 3 for \$1.00; 10 for \$2.50, postpaid. 3 to 4 ft., 8 for \$1.00, not prepaid.

## High Bush Cranberry

(*Viburnum opulus*)

Handsome native shrub attaining 12 feet with rather smooth, light branches and stems. The pure white flowers appear in May and June, followed by decorative fruits, which begin to color by the end of July and remain on the branches and keep their bright scarlet color until the following spring. Berries are not eaten by birds.

## Tartarian Honeysuckle

(*Lonicera tatarica*)

The best known of all the Bush Honeysuckles, and in our estimation the finest variety of all. Grows to a height of 8 to 10 feet, with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red berries, which ripen in midsummer and cling to the bush for several weeks. This is the best shrub in our nursery for a high, compact hedge, for a screen, or to attract birds.

Honeysuckle Grandiflora Rosea.

## Other Shrubs with Attractive Fruits

We can also furnish the following shrubs with attractive fruits. 2 to 3 ft., 35c each; 3 for \$1.00; 10 for \$2.50.

Barberry, Japanese	.....	<i>Berberis Thunbergi</i> .	Red.
Coralberry	.....	<i>Symphoricarpos vulgaris</i> .	Red.
Cranberrybush	.....	<i>Viburnum opulus</i> .	Red.
Elder, Red	.....	<i>Sambucus racemosus</i> .	Red.
Euonymus, Brook	.....	<i>Euonymus americana</i> .	Orange and red.
Honeysuckle, Belle	.....	<i>Lonicera bella</i> .	Red.
Honeysuckle, Tartarian	.....	<i>Lonicera tatarica</i> .	Red, yellow.
Jetbead	.....	<i>Rhodotypos kerrioides</i> .	Black.
Privet, Common	.....	<i>Ligustrum vulgare</i> .	Black.
Privet, Ibota	.....	<i>Ligustrum ibota</i> .	Black.
Rose, Japanese	.....	<i>Rosa rugosa</i> .	
Snowberry	.....	<i>Symphoricarpos racemosus</i> .	White.
Viburnums	.....	<i>Viburnum</i> , various.	White, red, black.

# Hardy Field Grown Ornamental

## With Highly

French Lilacs.

Magnificent shrubs, once planted, can be almost entirely forgotten as far as care is concerned. The high quality and size of shrubs we send you, makes it possible to enjoy their beauty even the first season.

### Almond

**Double-Flowering.** A most desirable early flowering shrub, with white or pink flowers. **1-yr., 25c; 2-yr., 50c; 3-yr., 75c. State color wanted.**

### French Lilacs

French Lilacs are grafted stock, they never sucker up on the lawn; become specimen trees. Our stock is 3-year, transplanted specimens, running 2 to 3 feet high.

While the supply lasts we are offering these at **50c each; the entire collection of 10 for \$4.00, prepaid. 2-year, 18 to 24 in., choice, 3 for \$1.00, postpaid.**

This collection includes the following new and well known varieties:

**Berryer.** Semi-double; clear mauve. New.

**Chas. X.** Single red; large trusses; beautiful. (See No. 1 opposite).

**Claude Bernard.** Semi-double; bright lilac. New. (See No. 3 opposite).

**Hugo Koster.** Single; lilac with reddish tint. New. (See No. 2 opposite).

**Jan Van Tol.** Single; pure white; very large trusses and extremely large, individual flowers; it is a very good grower and flowers freely. New.

**Ludwig Spaeth.** Large; single purple.

**Marie Legraye.** Pure white; single; immense clusters.

**Michel Buchner.** Double; pale lilac. New.

**President Grevy.** Large trusses of double red flowers.

**Vauben.** Double; tender mauve. New.

### Hypericum

**Henryi (Gold Flower).** Forms a shrubby recumbent bush, 2 to 2½ feet high, of smooth purplish arching stems. Single, 2-inch or larger bright golden flowers, the rich color heightened by the many tufted yellow stamens with reddish anthers. Their foliage is fernlike, with dark, shiny upper surface, richly contrastive to the abundant bloom which is quite persistent. Does very well in partial shade if soil is not too dry. **2-yr. plants, 60c each; \$5.50 per 10, postpaid.**

**Prolificum.** Of variable growth up to 5 feet; abundant dark glossy leaves. Blooms profusely with ½- to 1-inch yellow flowers in several to many axillary cymes. **18 to 24 in., 60c each; \$5.00 per 10, postpaid.**

Hypericum—Gold Flower.

Weigela Floribunda.

### Weigela

**Floribunda.** Of all shrubs of late creation, the everblooming red Weigela floribunda surpasses everything in a red-flowering shrub. Much hardier than Eva Rathke and a better red flower. The flowers commence blooming early in the spring and bloom profusely all summer long. The leaves are a glossy green and when the shrub is three years old the flowers are in such profuse clusters as to completely hide the leaves. Every customer should find a place for one to three of these beautiful shrubs in their border plantings. They are grafted and never sucker up and we have 5000 two-year-old transplanted shrubs to offer our trade this spring at a price in line with the cheaper flowering Weigela. **2-yr., 18 to 24 in., 50c each; 3 for \$1.00, postpaid.**

# Shrubs—

## Colored Flowers

### Philadelphus

(Mock Orange or Syringa)

This old-fashioned shrub with creamy white flowers borne in clusters is found in many plantings. There are many varieties that offer a wide range of size and blooms. All varieties are strong growers and are suitable for border, screen or specimen planting. We have a few new varieties that are exceptionally fine and you will be highly pleased with them. **1-yr., 25c; 2-yr., 50c; 3-yr., 75c, postpaid.**

**Coronarius (Mock Orange).** A tall, vigorous bush. Fragrant white flowers in May, resembling orange blossoms. Abundant dark green foliage. Does well in shady places. Fine for cutting. **3-yr., strong bushes, 35c each; 3 for \$1.00, postpaid.**

**Virginal.** Blooms throughout the season. This is a new and wonderful addition to the Mock Orange family but is far beyond anything in this line that has been brought out in the past. It is without question one of the most beautiful shrubs and once it becomes known will be planted on every home ground. Because of its being new the supply of this variety is scarce and high priced, but we are going to offer these at the following low prices as long as our supply of this shrub lasts. **18-24 in., 35c each; 10 for \$3.00. Large, 2-3 ft. plants, 50c each; 10 for \$4.00, postpaid.**

Philadelphus Virginal.

These Shrubs are Lovely and Ornamental Through the Full Season.

### Berberis - Barberry

**Atropurpurea (Red Japanese Barberry).** This shrub fills a long-felt want. Since wheat rust attacked this country and all purple and common Barberries had to be cut out there has been a great demand for a new type that would satisfactorily take the place of the old purple Barberry. We offer the new Red Japanese and guarantee that if it is placed in a position of plenty of sun it will do as well as the old time purple. Red Japanese Barberry may be used for shrubbery border, for clumps, or even as a specimen shrub. The color is a rich bronzy red similar to the best of the Bloodleaf Japan Maples. It is like the Japanese Barberry in all other respects, attaining its beautiful orange and bronze coloring in fall, and bearing the same profusion of bright red berries throughout the winter. (See colored cut opposite). **12-15 in., 35c; 18-24 in 75c, postpaid.**

Red Barberry.

**Special, 2-yr., 12-15 in., 15c each; 8 for \$1.00, postpaid.**

### Althea - Rose of Sharon

Unsurpassed by anything in the hardy shrub line for freedom of bloom or range of color. From midsummer until frost, when few other shrubs are in bloom, the Althea is most handsome, with its large camellia-like flowers of the most varied and beautiful shades. **Double White.** White, crimson center. **Double Variegated.** Pink and white. **Double Red.** An excellent striped variety, nicely marked white and rose. **Double Purple.**

**Double Blue.** Deep blue.

**Price, 2-yr., 2-3 ft., 25c each; 5 for \$1.00, postpaid.**

Any color desired.

Althea—Rose of Sharon.

# The Three Most Popular Shrubs for Foundation Planting

Spirea Anthony Waterer.

**Spirea Anthony Waterer.** Another excellent and very effective Spirea for mass plantings. Its gray-crimson flowers and variegated foliage make a beautiful contrast with other shrubs, and on account of its dwarfish nature it should be kept in the foreground. It is very hardy, and with its showy bloom coming "between spells" when few other shrubs are blooming, make it doubly essential for the home planting. The Anthony Waterer usually has its big wealth of bloom in July, and if there is plenty of rainfall this delightful, low shrub has a habit of being somewhat ever-blooming throughout the summer. The new growth has a few crimson flowers, furnishing color over a long period. **2-yr., 12 to 18 in., 15c each; \$1.50 per doz., postpaid. 18 to 24 in., 35c each; \$3.00 per doz., postpaid.**

## Spirea Van Houttei (Bridal Wreath).

Graceful, with long, drooping sprays, thickly studded with handsome pure white flowers, hence its popular name of "Bridal Wreath". This is the finest and probably the most beautiful of the Spireas, and one of the most popular of all shrubs. In May and June the arching branches are covered with little white flowers. The foliage is very beautiful, dark green in color, and finely cut, making the bush attractive even after the flowers are gone. It grows 6 feet in height, is extremely hardy, and can be used to good advantage either as a specimen or in the border. One of the best for flowering hedges and screens, in fact, its uses are legion. The Spirea is very prominent in mass planting. **2-yr., 18 to 24 in., 10c each; \$1.00 per doz., postpaid. 2 to 3 ft., 20c each; \$1.50 per doz., postpaid. 3- to 4-ft. clumps, 35c each; \$3.00 per doz., postpaid.**

Spirea Van Houttei.

**10 Hydrangea P. G.**  
**\$1.85**

**An Extraordinary Value**

Actual photograph of the plants we send you.

The above photograph shows one of our blocks of 10,000 Hydrangea P. G. These are all grafted, true type Hydrangeas, the best block we have ever grown. We offer you these in 2-year, No. 1 plants, 3 canes and up, at 25c each; 3 for 60c; or 10 for \$1.85, postpaid. Plant Hydrangea P. G. liberally around your grounds. No better shrub for foundation, separate groups, shrub groups or a hedge along the driveway.

# The Four Most Attractive Shrubs to Grace Your Lawn

## Viburnum Carlesi

(Mayflower Viburnum)

A truly wonderful new medium sized shrub from Korea, prized for its exquisite fragrance similar to that of the Trailing Arbutus. The waxy flower clusters, pink in bud, pure white when open, appear early in the spring. Thrives under most unusual conditions, but does best in partial shade and cool, moist soil. A charming plant for the foreground of the border or in planting about the house. **2-yr., 18 to 24 in., field-grown stock, \$1.00 each, postpaid.**

Viburnum Carlesi.

## Climbing Hydrangea

(Schizophragma hydrangeoides)

A very rare, beautiful climber. Blooms in June and July, with a mass of white or greenish white, very fragrant flowers, similar to bush Hydrangeas. Leaves are large, shiny dark green. Clings closely to stone and brick work, requiring no tying. A wonderful new variety. **We offer 2-year plants of this new vine at the low price of 50c each; or 3 for \$1.25.**

Climbing Hydrangea.

Oakleaf Hydrangea.

## Oakleaf Hydrangea

The most striking shrub for lawn or massed in clusters of 3 on border. Shrub resembles a compact oak tree 3 feet high covered through the summer with beautiful Hydrangea flowers. **2-yr., 18 to 24 in., 50c each; 3 for \$1.25, postpaid.**

## Purple Fringe

(Smoke Tree)

A shrub or small tree of spreading habit, covered in mid-summer with a profusion of dusky, hair-like flowers that give it the appearance of mist or smoke. Foliage changes to a brilliant red and yellow in autumn. Good as a single specimen on the lawn, or to mass with tall shrubs. **Good, 2-yr., 18 to 24 in., 50c each; 3 for \$1.00, postpaid. 4-yr., 3 to 4 ft., 75c each, prepaid.**

Smoke Tree.

## Announcement Extraordinary

We have been working with Peonies for many years to give our customers the three finest Peonies grown at a price within the reach of all. We are offering this spring the ten finest Peonies grown today in good 3- to 5-eye divisions at **75c each or 3 for \$2.00, postpaid.**

We consider Kelway's Glorious (9.8), Therese (9.8), and Philippe Rivoire (9.2), the most perfect of all Peonies. 10 represents perfection. However, if our customers should prefer, they may have their choice of the following varieties at this special price: Walter Faxon, Primevere—the great yellow Peony, Alma, Le Cygne, Lady Alexandra Duff, Solange, Longfellow, Mme. de Verneville, Mons. Martin Cahuzac, Brand's Magnificent, Richard Carvel, and Ophir.

Philippe Rivoire. 9.2.

Auguste Dessert, Mary Brand, Jubilee, Archie Brand, Laura Dexheimer, Fuyajo, Departing Sun, and Ophir.

**The following list of peonies we offer at 25c each or 6 for \$1.00, postpaid.**

# Climbing Vines and Creepers

Nothing lends such pleasing effect to wall or veranda as the judicious use of vines. The hardy vine is best adapted for covering an unsightly wall or for furnishing shade and ornament to veranda. Hardy vines practically take care of themselves after they are once established. All vines postpaid.

## Silver Lace Vine

**Polygonum Auberti.** Always scarce and in demand is this charming climber which will clamber gracefully over a trellis, porch or arch, or upon any support which may be devised. Grows rapidly, averaging 25 feet in a season. A well grown specimen is a cloud of lacy, misty white shot with tints of cream and pale rose of most exquisite effect. Produces more bloom than any other hardy vine, covering a season extending from late summer till well into fall. **Strong 2-year vines, only 50c each; 3 for \$1.35, postpaid.**

Silver Lace Vine.

## Wisteria

**Chinese Purple (Wisteria sinensis).** A most beautiful climber of rapid growth, and producing long, pendulous clusters of pale blue flowers. When well established it makes an enormous growth; it is very hardy; and one of the most supreme vines ever introduced. The very best vine to grow when it is desired to have it shade the upper part of the house. **1-yr., 25c; 2-yr., 35c each.**

**Note.** We are often asked why Wisteria doesn't bloom. The answer is you have been buying plants raised from seed. Many of these will never bloom. We graft our Wisteria and we guarantee that they will bloom the second year after planting.

## Honeysuckle

(Lonicera)

**Lonicera Heckrotti.** The wonder plant of the 20th century. Blooms all summer with pretty red flowers. Fine cover and foliage plant and very richly scented. If you are looking for a new vine and one that will give you pleasure all summer, include one of these in your next order. **2-yr., 75c each.**

**Hall's Japan (Lonicera Halliana).** A strong, vigorous evergreen variety, with pure white flowers, changing to yellow. Very fragrant; covered with flowers from June to November. **1-yr., 15c; 2-yr., 25c each.**

Clematis Jackmani.

## Boston Ivy

**Boston or Japan Ivy (A. Veitchi).** From Japan. It is a splendid plant for covering any object, as it clings perfectly to the smoothest surface. The foliage is a bright glossy green, changing to bright tints of scarlet, crimson, and orange. This is the beautiful covering that you see over brick walls and churches. **1-yr., 25c; 2-yr., 50c each; 12 for \$3.50, postpaid.**

## Clematis

**2-yr., field-grown, each, 50c; 3 for \$1.00, postpaid.**

A beautiful class of climbers, many of the varieties with flowers 5 to 7 inches in diameter. Excellent for pillars or trellises; or for bedding, running over rock work or an old tree stump.

Clematis is easily grown but must have a sweet soil. Put a bushel of rich, sweet soil in the hole before planting. Plant in sunny place; perfectly hardy.

**Henryi.** Large, creamy white flowers. A strong grower and very hardy; one of the best of the white varieties; a perpetual bloomer. **1-yr., 35c; 2-yr., 50c each.**

**Jackmani.** The flowers when fully expanded are from 4 to 6 inches in diameter; intense violet-purple with a rich velvety appearance, distinctly veined. It flowers continually from July until cut off by frost. **1-yr., 35c; 2-yr., 50c each.**

**Madame Edouard Andre.** Flowers large, bright, velvety red; free flowering and continuous bloomer. **1-yr., 35c; 2-yr., 50c each.**

**Paniculata or Sweet-Scented Japan Clematis.** A Japanese plant possessing unusually attractive qualities. Very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. Flowers are medium size, pure white, borne in immense sheets and of a most delicious fragrance. **1-yr., 35c; 2-yr., 50c each.**

Clematis Paniculata.

Purple Wisteria.

Clematis Mme. Ed. Andre.

## Extra Special Offer

Any three of above vines in 2-year, No. 1 plants will be sent postpaid for ..... \$1  
The wonder Honeysuckle or Silver Lace Vine may be included.

# Three Trees YOU Should Use to Beautify Your Home

**Cut-Leaved Weeping Birch.** Its tall, slender, yet vigorous growth, graceful drooping habit, silvery white bark and delicately cut foliage present attractive characteristics rarely met with in a single tree. Very popular for single lawn specimens or groups; the white bark of trunk and twigs gleaming conspicuously among the darker greens and browns.

Cut-Leaved Weeping Birch.

**5-6 ft., \$1.00; 6-8 ft., \$2.00, prepaid.**

Lombardy Poplar.

**4-5 ft., 50c; 5-6 ft., \$1.00, prepaid.**

**Lombardy Poplar.** The selective appreciation of trained landscape builders is getting this fine type into much more general use. Old trees which were thoughtfully placed, are outstanding landmarks today; their great height, dense slenderness, and osmbre silhouette against the skyline, a picturesque effect. Lombardys have no bad habits like Carolina Poplars.

Babylonian Weeping Willow.

**5-6 ft., \$1.50; 6-8 ft., \$2.00, prepaid.**

**Babylonica Weeping Willow.** A graceful tree of large size. Its fresh, bright green tint and long, wavy branches make it very attractive.

## Special Combination Offer

The three trees illustrated will be sent to you prepaid for **ONLY..... \$2.50**  
A Regular \$3.00 Vaule.

**EXTRA SPECIAL**

**Japanese Barberry Hedge. 18 to 24 in., 100 for \$12.50, prepaid.**  
**Red Barberry Hedge. 18 to 24 in., 100 for \$20.00, prepaid.**

## Ornamental Hedges *at Amazingly Low Prices*

A small amount of money invested in beautiful hedges will add more value to a country or town home property, dollar for dollar, than any other similar investment without exception. A hedge planted about the borders of a lawn will transform a heretofore bare looking spot into a place of beauty; and you can keep it low or let it go high, as a screen. City lots may be divided by hedging with fine effect. In dozens of different ways, which suggest themselves to the property owner, hedging may be used with great profit. A hedge is easily set, a little care will keep it in perfect condition and it is a wonder that more are not planted.

Can you imagine anything more beautiful and fascinating than a living fence? That's what a hedge is. How much more friendly than the old-fashioned wood and iron fences! As modern ways of planting call for a clear view of the house front, nothing is better than a neatly trimmed hedge along the borders of property. A walk or drive bounded by hedges is charming.

### Amoor River Privet

This is the hardiest of all Privets and especially desirable for planting in the North. Not subject to blight. In warm climates it is nearly evergreen, and even in the North the foliage remains far into fall. Glossy green leaves. May be trimmed to any desired height and shape.

**Price, heavy, 2-yr. stock, 10 for 60c; \$5.00 per 100.**

**Honeysuckle Hedge. Pink flowers, red berries. Ideal for high hedge. 18-24 in., 25c each; 10 for \$2.00; 100 for \$10.00, prepaid.**

**SPECIAL.**

**Amoor River Privet Hedge. Best for northern states. 100 for \$5.00, prepaid. 18 to 24 in., 2-yr.-old stock**

### Ibota Privet

This variety has long been recognized as one of the best and most beautiful plants for hedges. It makes a quick, strong growth and is free from insects and scale. Leaves are dark, glossy green.  
**Price, heavy, 2-yr. stock, 10 for 75c; 100 for \$5.00.**

### Japanese Barberry

The Improved Thunberg's Barberry that is entirely free from rust and may be planted in any state. A beautiful plant, whether used for group planting, shrub masses, or hedges. Foliage bright green, turning to reddish bronze in fall. Brighter colors obtained in a sunny location. Branches loaded with scarlet berries in fall that are retained during the winter. **Price, 15c each; 8 for \$1.00; 100 for \$12.50.**

**Special Note:** A unique hedge may be made by planting Japanese Barberry with Spirea Van Houttei (described on page 16). Alternate three Barberry then three Spirea Van Houttei and plant in a straight line. Keep the Spirea pruned to a height about 6 to 8 inches greater than the Barberry. We can furnish Ibota or Regel Privet hedge at same price as Amoor River.

### Arbor-Vitae

Makes a neat, beautiful hedge. It stands trimming well. Especially effective in winter. **12-18 in., \$20.00 per 100.**

**Norway Spruce. For hedges and windbreaks. 12-18 in., \$25.00 per 100.**

# Eight Expensive Items— You Have Always Longed For Now at Prices You Can Afford to Pay

Rhododendron Catawbiense.

## Rhododendrons

Those of you who have noticed the plantings in Cleveland and other cities in the North and East during the past 5 or 6 years will have noticed the large number of homes landscaped with Rhododendrons and Azaleas. These beautiful broad-leaved evergreens need no lengthy description. The exquisite beauty of the plant and delicate shading of the masses of orchid-like blossoms, big as Peonies, appeal to everyone. Directions for planting and growing furnished free.

**Catawbiense** (Catawba Rhododendron). One of the most beautiful native shrubs and the hardest of all the Rhododendrons. In June every branch has a large cluster of 4- to 6-inch broad, rosy purple blooms. The foliage is the most handsome of any Rhododendrons. This, like the following species, is now used extensively in park

planting and taken by carloads from native woods and mountains. Dug with care, with a ball of turfy soil, it may be successfully transplanted. The handsome large evergreen foliage is pleasant to behold the year around. Guaranteed nursery grown.

**Clumps, 12 to 18 in., \$2.50 each; 10 for \$20.00.**

## Azalea Mollis - Hardy Azalea

This is one of the aristocrats of the flower family. The plant is absolutely hardy, grows to a height of 24 inches and is covered with a mass of bloom in orange and yellow colors through the month of May and early June, before the leaves appear. They are one of the most strikingly beautiful shrubs and attract more attention through the month of May than anything that we have on our grounds. They are planted as a border to Rhododendrons and in beds by themselves. We have a large stock of this variety and have cut the price within the reach of all. **12 to 18 in., B. & B., \$1.50; 18 to 24 in., B. & B., \$2.50, f. o. b. Middlebury, Ind.**

Hardy Azalea.

Blue Althea.

## Blue Althea

The most popular of all Altheas. Our price enables you to obtain some for your home grounds. **18-24 in., 50c each, postpaid.**

## Daphne

**Cneorum.** Thousands paused to admire the Daphne blooming in our model rockery at the World's Fair in September and October. It is a very dwarf shrub, almost evergreen, with spreading branches on which the narrow, inch-long leaves are crowded; making very pretty trails of blue-green foliage. The soft, pink flowers appear profusely during April and May, and at intervals throughout the summer; very small and dainty in terminal clusters, with a distinct and very pleasing sweet fragrance. **6-8 in., B&B, \$1.00; 8-12 in., B&B, \$1.25.**

Daphne in Bloom. More Fragrant Than Lilacs.

## Magnolia Soulangeana

This is the most decorative and most popular of the hardy Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the spring. These blooms measure from 3 to 5 inches across and make a beautiful showing.

The Magnolia Soulangeana begins blooming when about 3 feet tall. It will eventually attain a height of from 8 to 10 feet.

**Price, 12 to 18 in., \$2.00 each; 18 to 24 in., \$3.50 each; 2 to 3 ft., blooming size, \$4.50 each. All prices prepaid.**

Blue Hydrangea.

## Blue Hydrangea

This Hydrangea has been the most desired of all the Hydrangeas offered to the trade. It blooms in great profusion, from New York City to Cleveland, Ohio; and south to Washington and Baltimore.

We began experimenting with this variety about 5 years ago and find that by covering in winter, they grow and bloom for us as readily as for our friends in Boston and Newport, who also have to protect them by covering in like manner.

This Hydrangea is a Japanese type that blooms pink flowers on the 1-year stems, followed by blue flowers on the 2-year-old wood. In other words, it is necessary to have 2-year-old wood to have the blue Hydrangea.

We now have a nice stock of these young plants which we are offering to our customers in 8- to 12-inch size at \$1.00; 18- to 24-inch at \$2.00 each, postpaid.

Japanese Red-Leaved Maple.

## Japanese Red-Leaved Maple

Rounded, dwarf trees seldom maturing to over 10 feet, densely furnished to the ground with indented leaves of unrivaled brilliancy and charm. Their early and midsummer aspect is vivid blood-red, which dulls to a bronzy purple-red toward fall. These are splendid foreground subjects in mixed groups or for solitary color blotches in the open lawn.

**Price, 6 to 12 in., \$1.00; 12 to 18 in., \$2.00; 18 to 24 in., \$3.00 each. All prices prepaid.**

## Koster's Blue Spruce

The bluest of Blue Spruces, this is the most remarkable and conspicuous of all the conifers for ornamental planting. Being symmetrical and shapely, its ideal purpose is as a specimen when owing to its magnificent, vivid bluish coloring it constantly attracts attention wherever planted.

**Price, 6 to 12 in., X, 1-yr. grafts, \$1.00 each, postpaid. 18 in., XXX, specimen plant, \$3.50 each, prepaid.**

Magnolia Soulangeana.

Koster's Blue Spruce.

plants, guaranteed quality  
throughout-all plants labelled **PREPAID**

**ANCHUSA** (Alkanet). For producing a mass effect of brilliant blue the Anchusas cannot be surpassed.

**AQUILEGIA** (Columbine). As a cut flower the Long-Spurred Aquilegias are daintiest of our outdoor grown flowers. They come in blues, whites and yellows, and shades of pink and rose.

**ASTILBE** (Spirea). These stately Astilbes producing their graceful feathery spikes of flowers during June and July succeed best in a partially shaded position in rich, preferably heavy soil where they will not lack for moisture. Four colors. Each, 25c.

**CAMPANULA** (Bellflower). A large and varied family of the greatest value. They are of the easiest culture, thriving in any ordinary garden soil. **C. medium** (Canterbury Bells). Blue, rose, and white.

**COREOPSIS grandiflora** (Tickseed). An improved variety with large, bright yellow flowers; one of the best hardy plants. Fine for cut flowers all summer long.

**DELPHINIUM** (Larkspur). Delphiniums are the most beautiful hardy plants in cultivation, for they have such an immense variety of beauty and increase in size, in beauty, and often in quantity, year after year. They will bloom from spring until fall. We have dark blue, light blue, Gold Medal hybrids.

**DIANTHUS** (Pinks). Hybrid Garden Pinks. Without the spicy fragrance of the Hardy Pinks a garden is incomplete. Their perfect form and rich coloring make them great favorites for summer bouquets. June.

**DIGITALIS** (Foxglove). For stately and picturesque beauty it is not to be surpassed, and planted in masses in the garden among shrubs or naturalized on the edge of woods, in the orchards or along brooks, it is extremely effective and satisfactory. It is a biennial, but, as it renews itself from self-sown seed, it may be treated as a perennial.

**GAILLARDIA grandiflora** (Blanket Flower). Base of petals is scarlet-crimson, bordered golden yellow. A most beautiful combination; useful in assorted bouquets; valuable for table decoration.

**GYPSOPHILA paniculata** (Baby's Breath). A beautiful old-fashioned plant possessing a grace not found in any other perennial and attracting the eye of everyone.

**HIBISCUS** (Mallow Marvel). Improved new hardy giant-flowering Marshmallows, the most free-blooming of all perennials; rich, gorgeous and hardy as an oak.

**HOLLYHOCKS**. The Hollyhock is an old garden favorite, full of sentiment and association with a distant past. It is a plant of strong, vigorous growth and noble aspect.

**LIATRIS** (Blazing Star or Gay Feather). It blooms in midsummer and throws up long, narrow spikes of rich purple flowers, which last a long time.

**PLATYCODON** (Balloon Flower). June to October. Large, showy, deep blue flowers. Good for rock garden and border.

**PYRETHRUM** (Painted Daisy). Daisy-like flowers in white and colors. The flowers are borne on long stems and are fine for cutting. Fernlike foliage.

**TRITOMA** (Red Hot Poker). The brilliant Flame Flower visitors at the Fair touched to see if it was real. This perennial added color at the fountain in our terraced garden exhibit in the Horticultural Building and also in our restful garden.

**NOTE:** Except as noted, these plants may be purchased separately at the rate of 15c each, or 6 for 75c, postpaid.

Platycodon.

Double Hollyhocks.

## Krider's "DE LUXE"

ROCK GARDEN  
COLLECTION

**22 ROCK PLANTS \$2<sup>00</sup>**  
*Named and labelled*  
 These are all field grown plants for only **2<sup>00</sup>**  
**PREPAID**

**ACHILLEA tomentosa.** 6 to 8 inches. July to September. Bright yellow flowers. Excellent for rockeries.

**ALYSSUM** (Rock Madwort). Very popular for beds, borders and winter flowering; of easiest culture and very free blooming.

**ANEMONE pulsatilla** (Pasque Flower). Grows from 9 to 12 inches high and produces violet or purple flowers during April and May. An interesting plant for the rockery or well-drained border.

**ARABIS alpina** (Rock Cress). Pure white flowers produced in dense masses; splendid for border and rockery work.

**ASTER alpinus albus.** Fine dwarf white Aster, bearing large, single white flowers on stems 6 to 8 inches high. May and June. Excellent for rock gardens.

**DIANTHUS plumarius** (Clove Pinks). For border or rock garden. It will bloom continuously if flowers are cut off when they begin to fade.

**GYPHOPHILA repens** (Baby's Breath). Beautiful trailing plant.

**HEUCHERA** (Coralbell). A beautiful rock plant growing strong spikes 6 inches tall, covered with brilliant red flowers. A sensation in our rockery at the World's Fair.

**IBERIS** (Hardy Candytuft). Most desirable dwarf plants, 8 to 10 inches, with evergreen foliage, which is completely hidden with dense heads of flowers early in the spring.

**IRIS pumila.** These beautiful little Irises do not grow over 4 inches high, and bloom in April and May. They are fine for bordering flower beds or planting in front of the tall Irises.

**LATHYRUS** (Perennial or Everlasting Pea).

**L. latifolius, Pink Beauty.** Large racemes of pleasing deep rose flowers.

**PACHYSANDRA terminalis** (Japanese Spurge). A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover which will grow in all shady situations and the only plant which will thrive under pine trees.

**PENTSTEMON, Coral Gem.** Beautiful coral spikes.

**P. Hardy Gem.** Huntington's shell-pink, tall airy spikes.

**PHLOX subulata** (Moss or Mountain Pink). An early spring flowering type with pretty mosslike, evergreen foliage, which, during the flowering season, in April and May, is hidden under the masses of bloom. An excellent plant for the rockery, the border, and invaluable for carpeting the ground or covering graves.

**PLUMBAGO larpentae** (Leadwort). One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during late summer and fall.

**SALVIA azurea** (Meadow Sage or Clary). A Rocky Mountain species. Grows 3 to 4 feet high, producing during August and September, pretty sky-blue flowers in the greatest profusion.

**SAPONARIA ocymoides splendens** (Soapwort). Pretty prostrate border and rockery plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June.

**SEDUM** (Stonewort). Dwarf varieties, America's greatest rock plant. Suitable for the rock garden, carpet-bedding, covering of graves, etc.

**S. spectabile, Brilliant.** Large heads of handsome deep, rosy crimson-red flowers; broad green foliage. Fine border plant. 1½ feet. August to September.

**S. spurium coccineum.** A beautiful rosy crimson flowered form. July to August. 6 inches.

**S. Stahl.** Very fine rock plant.

**STACHYS lanata** (Woundwort). Fine, old-fashioned cottage garden plant for edging; useful in rock garden; dwarf; soft silvery foliage; flowers useless. 4 inches.

**STRIPED ORNAMENTAL GRASS.** Ideal for rockery and pool. **Clumps, 15c each, 6 for 75c.**

**VIOLAS, HARDY.** Yellow, white and blue.

**YUCCA filamentosa** (Adam's Needle). Among hardy plants there is nothing more effective and striking. It is also indispensable for the rockery. **Each, 25c; 3 for 50c.**

Shasta Daisy.

Achillea Tomentosa.

Statice.

Aubrietia.

Pyrethrum.

Phlox Subulata.

**NOTE:** Except as noted, these plants may be purchased separately at the rate of 15c each, or 6 for 75c, postpaid.

# The GREAT FOUR of

New Red Northern Spy.

For the past twenty years, nurserymen over the country have been making endeavors to obtain apples that are red in color, that come into bearing early, and that still retain the quality of some of the old-fashioned apples of our Grandfather's orchard. The greatest advancement in apple culture in the past ten years has been made in the 4 varieties illustrated on this and the opposite page, namely Red Baldwin, Red Delicious, and the New Red Cortland. Color is the best selling attribute in any apple. No greater apple ever grew than the Old Northern Spy but it had two faults; it took years for it to come into bearing and it was too pale a green to be attractive on the market. The new Red Northern Spy comes into bearing in four to six years and has a rich red color equal to any Jonathan or Black Ben Davis. The same is true with

the Red Baldwin. It now has a color equal to the Jonathan. It is a larger Apple than the Jonathan. It has no bad faults and it comes into bearing at six years of age.

## NEW RED NORTHERN SPY

Imagine all the splendid qualities of the genuine Northern Spy, its unusual and delicious flavor, its great cooking and baking quality, its hardiness and wonderful productiveness, and add to these outstanding features, an apple of solid deep red color, borne on a tree which comes into bearing in six years instead of having to wait eighteen, and you get some idea of the immense good that nurserymen have wrought in perfecting the New Northern Spy.

**We offer these in 2-year, No. 1, 4- to 6-ft. trees, within the reach of all our customers, for 50c each; \$4.00 per 10; \$35.00 per 100, prepaid at an additional cost of 5c per tree.**

## RED BALDWIN

This famous Apple for many years was the standard of the apple industry due to its immense yielding qualities and the firmness of the fruit itself. For the past 20 years, nurserymen have

been experimenting, grafting continuously from trees that excel in red color, until now we have a strain, the fruit of which is as red as the Jonathan and almost double in size. These trees also come into bearing in six to eight years. How often we have heard orchardists say that if they could only plant Baldwin, Northern Spy, King of Johnson county and some of the good old apples of the early days and hope to live to see them come into bearing, how pleased they would be. Their wish can now be realized in these newer, redder types of these old varieties. We urge our customers to plant some Red Baldwin.

**We offer them in 2-yr., No. 1, 4 to 6 ft., each, 50c; \$4.00 per 10; \$35.00 per 100, prepaid at 5c per tree additional.**

Red Baldwin.

# the RED APPLE world

We are offering these varieties to our customers at practically no advance in prices. We want you to get a start of these wonderful varieties. Last spring we sold out of these varieties early in March and returned hundreds of dollars to our customers in April and May after our supply was exhausted.

This year we have about the same quantity and we have not advanced the price. To those whose money was returned last year, we urge you to let us hear from you early.

Common Delicious.

Red Delicious.

## RED DELICIOUS

The sensational New Red Delicious which we are offering to the trade is a marvelous improvement over the common Delicious in that it is a much deeper red color without stripes, even in the heavily shaded portions of the tree, where the foliage is very thick, the color is outstanding, where common Delicious would be striped red and partly green. This tree is typically Delicious as to leaf, bark, and general shape, and the fruit is in every particular a high quality Delicious excepting color, which is an outstanding solid red—the most beautiful Delicious we have ever seen. Although this new Delicious colors 2 to 3 weeks earlier than the common variety, it does not ripen any sooner and can be picked at the same time. Many growers have been known to leave their Delicious crop on the trees too long in the hope that a deeper red might be attained and the fancy quality of the apples thus be improved; however, the result has been that they become over-ripe, mealy, and reach the market in poor condition. Such is not the case with the New Red Delicious, which can be picked while hardly ripe and be assured of a full coloring which will put them in the extra fancy grade and bring top prices. This also makes better keeping qualities for storage. The New Red Delicious should be included in every fruit order at the following low prices:

**2-year, No. 1, 4 to 6 ft., 50c each; \$4.00 per 10; \$35.00 per 100, pre-paid at 5c per tree additional.**

## NEW RED CORTLAND

New Red Cortland, originated and developed by the New York Experimental Station, is a cross between Ben Davis and McIntosh. The good qualities of both parents have been combined and the weak ones eliminated.

From Ben Davis, Cortland has inherited the quality of clinging to the tree, and the ability to withstand handling; from the McIntosh it has taken that fine flavor for which this variety is noted.

The tree is a fine grower and comes into bearing very early. We have seen 2-year-olds producing two or three apples per tree.

This New Red Cortland ripens in the late fall and the fruit is large, round to conical in shape. Color a beautiful dark red with purplish bloom. Flesh is fine grained, crisp and juicy, white and firm. The trees are large, hardy, healthy, and sure croppers.

**2-year, No. 1, 4 to 6 ft., 50c each; \$4.00 per 10; \$35.00 per 100, pre-paid at 5c per tree additional.**

New Red Cortland.

# Krider's Apple Trees

McIntosh Red.

Apples should be planted in early spring or late fall. We recommend April and May for spring planting; October and November for fall planting throughout Indiana. The varieties we are offering cover the season from early to late. All of the varieties have been tested and we know they will prove satisfactory.

Almost any soil will suit the trees; however, best results will be obtained by planting in a rich, loamy soil. Clean cultivation, careful pruning and spraying will pay big dividends. Trees should be planted 35 feet apart each way, and for the first year or two the trunks of the trees should be protected from rabbits.

**NOTE.**—We propagate our Apples from scions cut from trees that are bearing fruit. Many nurseries use scions from the nursery rows and trees raised in this manner will not bear fruit until very old. Be sure you get trees that have bearing wood grafted on them.

Apples are going to be valuable in the near future, they bring a handsome price now and when the old orchards are gone they will nearly double the price received now and a good Apple orchard will be more valuable than an orange grove. True, some of us will not live to reap the benefits, but our children can not have a greater inheritance than a thrifty, bearing orchard, which will guarantee them a fine income annually.

We grow forty varieties of Apples, each one having certain characteristics which render them valuable. Those marked with an asterisk (\*) are such as are most valuable in Indiana.

## PRICES OF APPLES AND CRAB APPLES—Whole Root Process:

Prepaid at 5c per tree.

	Each	10	100
No. 1—2 yr., 4 to 6 ft. ....	\$0.35	\$3.00	\$25.00
No. 1—1 yr., 3 to 4 ft. ....	.25	2.00	18.00

We can furnish Dwarf Apples at the same price as Standard.

We can furnish 6-7 ft. trees for city planting at 75c each. Prepaid at 5c per tree.

## Summer Varieties

\***Early Harvest.** Size medium, shape roundish, usually more or less oblate, smooth, bright straw color when ripe; flesh nearly white; flavor rich acid; fine. Season July. Productive. Needs rich cultivation to be fine. Good throughout the North and Southwest.

\***Yellow Transparent.** Medium, white, changing to lemon-yellow, smooth, waxen surface; of good quality, with crisp flesh; very early, and, for an early Apple, an unusually good keeper. Valuable for market. July and August.

\***Red Astrachan.** The earliest and best red Apple. Fruit of good size, dark red. Vigorous, hardy and productive.

## Fall Apples

\***Wealthy.** The most dependable and widely planted fall Apple. Bright red, striped. Medium to large in size. Hardy and a free grower.

\***Maiden Blush.** A medium to large pinkish Apple. Very firm, white flesh. Acid flavor; vigorous and productive.

\***Duchess.** Fruit large, roundish. Splendid cooker. August and September.

**Fameuse (Snow Apple).** Medium deep crimson, white flesh. October.

**Wolf River.** One of the largest Apples grown. Color yellowish green, splashed with red. October.

Yellow Transparent.

Krider Nurseries, Inc. Pleasant Mt., Pa.  
Middlebury, Ind.

Dear Sir:

We wish to thank you for the good service you have given us and for the nice stock you have shipped on our orders, which is appreciated.

LEON D. WINNER

## Winter Varieties

**\*Delicious.** Large, with surface almost covered with a most brilliant dark red, blending to a golden yellow at the blossom end. Flesh fine grained, crisp, juicy, melting and really delicious. The tree is a hardy and vigorous grower and forms a strong, beautiful head, capable of bearing enormous loads and bears about the fourth year after planting. In keeping qualities it ranks with the best, coming out of storage in March and April in perfect condition.

**\*Grimes Golden.** The standard of excellence, of the best quality, rich golden color. Flesh is yellow, very firm, crisp but tender, rich, aromatic and juicy. Medium to large. An ideal dessert and cooking Apple. Tree is hardy, vigorous, upright grower, and a heavy, regular bearer. From November to March.

**\*Jonathan.** A beautiful red Apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive, and an early bearer. November to April.

**Gano.** Similar but superior to Ben Davis. More color and even in size. Keeps until March.

**McIntosh.** Medium, highest quality, deep crimson, sub-acid. October.

**N. W. Greening.** Excellent keeper; early bearer. Keeps until May following picking.

**Ontario.** A new winter Apple of good keeping and early bearing qualities. Rich red in color.

**R. I. Greening.** Large yellow, abundant yielder. March to April.

**Stayman** (Improved Winesap). Large and more prolific. Fine keeper.

**Tolman Sweet.** Medium pale yellow, the most valuable baking Apple. Keeps until April.

**Tulpohocken** (Fallawater). Large, green, very juicy. October.

**Wagener.** Good size, deep red, flesh firm. One of the first varieties to bear. November.

**Winter Banana.** An excellent market variety. Fruit has a flavor that cannot be described. Flesh golden yellow. November.

**Winter Rambo.** Medium flat, streaked red and yellow. Hardy and productive. November.

**York Imperial.** Large red. Bears within four years. Good shipper. November to March.

**Yellow Bellflower.** An old-fashioned Apple too well known to need description. Has many good qualities and worthy of a place in every orchard.

Jonathan.

## Crab Apples

Prices of all varieties same as Standard Apples.

For preserves, jellies, flavoring, canning, Crab Apples are very good. Also their tartness is agreeable once in a while when they are eaten fresh. The trees themselves are beautiful and when loaded with the bright colored fruit, are striking. They are an ornament to any grounds and look well beside the finest ornamentals.

**Hyslop.** Large; dark crimson, with bloom; very showy. Tree very hardy; late.

**Transcendent.** The largest Crab Apple. Red; showy; excellent. September to October.

Wealthy.

20th Ave.,  
Whitestone, L. I., N. Y.  
Gentlemen:

Last February I sent you a trial order for your Phlox bargain and am writing to tell you how beautiful the rich colors have been in our garden. Twenty-seven of the twenty-eight grew fine and bloomed.

Very truly yours,  
A. L. COUGHLIN.

# Choice

The Peach holds a place second only to the apple in the United States. It ripens over a long period and with proper selection of varieties a succession of fruit may be had throughout the summer and early fall. In a general way it may be said that the standard varieties of Peaches have a wider range of adaptability than the majority of apples and thrive on thinner soils; for example: Elberta is the leading variety in all Peach growing sections of the country—but no single variety of apple tree occupies the same position in its class as does Elberta. This fact is ample proof of the adaptability of the Peach.

Apply paradichlorobenzine in a circle about 4 inches from tree, using a tablespoon to a 5-year tree, cover by mounding the dirt about the tree. The gas resulting from this preparation is a sure cure for the borer and will prolong the life of a peach tree five years.

**Paradichlorobenzine.** A sure cure for the peach borer. This remedy can be purchased from your druggist. If applied in September the following directions should be followed: Remove the dirt from about the tree in a circle of 12-inch radius.

	Each	10	100
No. 1, 4 to 6 ft. ....	\$0.25	\$2.00	\$18.00
No. 1, 3 to 4 ft. ....	.20	1.50	15.00
No. 1, 2 to 3 ft. ....	.15	1.20	10.00
Prepaid at 5c extra per tree.			

## EARLY AND MID-SEASON VARIETIES

- Carman.** In this new, hardy, rot-proof Peach, almost as large and fine as the Elberta itself, we have a Peach of great market value; a large, roundish Peach, with pale yellow skin, red blush on sunny side; white flesh; tender and melting; rich, sweet and superior flavor. A big, early, yellow-skinned Peach of high quality is sure to be in great demand. August.
- Champion (Free).** Large, round, quite regular; yellowish white, mottled with red on sunny side; flesh white with red at the pit; one of the best in quality. For nearby market and home use it is the best variety we know of. A good healthy grower and hardy in fruit bud. Fruit ripens from 20th of August to first of September.
- Crawford's Early (Free).** Large, roundish, bright yellow with red cheek; flesh yellow, juicy and sweet; quality good. August and September.
- Early Elberta (Free).** Larger than Elberta, though identical in form; bright yellow with red blush; flesh yellow, finer grained and sweeter than Elberta; ripens a week to 10 days before Elberta; good shipper. Tree strong grower, hardy, good bearer. Last of August.

Salwey.

South Haven.

# Peaches

**Elberta (Free).** The great market Peach, perfectly hardy in the North and is believed to be the best all around Peach; color lemon-yellow with blush on sunny side; flesh pale yellow, tender and juicy; tree vigorous; a good shipping Peach. September.

J. H. Hale.

## Mammoth Heath

**Cling.** Large, creamy white with faint blush; fine quality and good keeper. One of the sweetest, juiciest, most luscious of the Peach family, the housewife's favorite for canning and preserving. Tree very hardy, vigorous, early bearer, productive. Sells for fancy prices. Truly a moneymaker.

**J. H. Hale (Free).** Fruit averages one-third to one-half larger than Elberta; ripens about 5 days earlier and is much superior in flavor. Color a beautiful golden yellow with deep carmine blush. Seems to do well over a wide range of territory. It is well worth planting. September first.

**Kalamazoo (Free).** Medium to large, oval, yellow striped with red and a thin bloom; flesh yellow, red at the pit, rich, vinous and of good quality. A valuable sort. September first.

**Lemon Free.** This is the Peach that is so often sold for Gold Drop. Peach is large.

**Rochester (Free).** Early midseason. Color lemon-yellow changing to orange-yellow, blushed with deep, dark red. Skin thick, tough. Flesh yellow stained with red near the pit. Very juicy, tender and melting. Sweet. Highly flavored. Very good in quality.

**South Haven.** The great hardy Peach for cold regions, stands 10 degrees colder weather than any other Peach grown. Large, yellow, freestone. Large as Elberta and a week earlier on the market. Of all Peaches for Indiana markets, this rules supreme. Plant for commercial purposes: South Haven, Elberta, J. H. Hale. All yellow, all freestone, all money makers.

**New Prolific.** This is one of the most prolific of all medium ripening Peaches. Produces immense yields.

## LATE RIPENING

**Crawford's Late (Free).** Large, roundish oval, yellow with broad red cheeks; flesh yellow with red at the pit; melting, vinous and very good. Late September.

**Gold Drop (Free).** The almost translucent golden colored flesh of this Peach renders it exceedingly attractive in market, where it sells at highest prices. The tree is hardy and bears early; profitable. Late September.

**Wilma.** The fruit is large as Elberta, its parent, but not quite so elongated; color very much better and ripens about 10 days later. September 25th. Quality much better. Wilma sold for double the price of Elberta and brought the highest price of any Peach on the market this season.

**Salwey.** One of the best and most regular bearers. Very large, creamy yellow with crimson cheek. Flesh deep yellow, juicy, rich and sweet. Free. Early October.

**Salberta.** The late Elberta ripens about the last week in October. One of the best of late yellow Peaches.

New Wilma.

## 3 Apricot Trees

*That are Profitable to Plant in the North*

Ripening as it does between cherries and peaches, usually about a month before the early peaches, the Apricot is a most welcome fruit, tempting and delicious. No garden should be without a few trees. In addition to its value as fresh fruit it is a superior fruit for canning and drying, vast quantities being used for these purposes every year. There is always a market for Apricots at good prices, and the planter need have no fear of overproduction.

**Budd.** Russian. Large, white with red cheek; sweet and juicy; strong grower, good bearer. Late.

**Moorepark.** One of the largest and finest Apricots. yellow with red cheek. Flesh orange, sweet, juicy and rich; parts from the stone. Very productive.

**Superb.** Russian. Medium, roundish oval, smooth, light salmon with numerous red or russet dots, flesh yellow, firm, sub-acid and good; tree hardy and productive. Middle of July.

**Prices of all varieties of Apricot trees prepaid.**

**Medium size, 2-yr., 3 to 4 ft., 60c each; 10 for \$5.00.**

Superb Apricots.

Champion Quince.

## Quinces

Quince trees can be planted on low, damp, heavy soils where other fruits do not thrive. They require very little attention and are very profitable for market. No home garden is complete without a few Quince trees.

**Price of Quince trees: 2-yr., 4 to 5 ft., 75c each; \$8.00 per doz. 2-yr., 3 to 4 ft., 60c each; \$6.00 per doz., prepaid.**

**Champion.** Good bearer; very large; good keeper; very productive. Bears extremely young.

**Orange (Apple).** Large; bright golden yellow; excellent flavor. Fine for domestic use, October.

## Asparagus

The first garden vegetable of spring; it is a great delicacy and comes in just when it is most needed. One hundred roots will supply a small family and will last for years. Set the plants about 18 inches apart in the row. Spread roots out in bottom of hole or furrow and fill in as plant grows, so that roots will be about 4 inches deep.

### ASPARAGUS—2-year-old—Prepaid:

	Doz.	100	1000
Martha Washington .....	\$0.25	\$1.00	\$8.00
Early French Giant Argenteuil ....	.20	1.00	6.00
Improved Palmetto .....	.20	1.00	6.00
Columbia Mammoth White .....	.20	1.00	6.00
Conover's Colossal .....	.20	1.00	6.00
Martha Washington, 1-year-old ...	.20	.50	3.50

## Rhubarb

**Victoria.** The old standard variety; large stalks. **\$1.00 per doz.; \$3.00 per 100, prepaid.**

**Linnaeus.** One of the leading varieties grown here. Stalks not as large as Victoria but earlier.

**\$1.00 per doz.; \$3.00 per 100, prepaid.**

**Miller's Cream.** For many years an old market gardener near Bristol had the early trade of Eikhart on pie plant; he had the largest, earliest and the best flavored pie plant that came to the city. Pies made from it had the flavor of peaches and it was called peach flavored. Since his death we have succeeded in obtaining the entire stock and have at this time 10,000 stalks. We are offering this to our customers at the same price as the common kind. Be sure and send for a dozen of this variety in your order. We call it "Miller's Cream" and will give \$25.00 for a dozen stalks that will excel it in size, season and quality. **\$1.00 per doz.; \$3.00 per 100, prepaid.**

Asparagus, Martha Washington.

Rhubarb, Miller's Cream.

# PLANT PLUMS

—for—  
**PROFIT**

—near chicken parks  
if possible

No other fruit tree, unless it is the cherry, will produce more abundantly than a Plum tree. Although they will yield crop after crop despite neglect, Plum trees will readily show the result of care and modern methods of fruit growing. The commercial side of Plum production has received much attention in late years but the supply still falls far short of the demand. In general, Plum trees thrive best in a sandy or clayey soil. A distance of 16 to 18 feet apart is considered the best for Plum trees with the distance increased to 20 feet where a wagon spraying outfit is used. Many varie-

ties of Plum produce so abundantly that the best results will be obtainable only by careful thinning. If allowed to grow naturally the trees will be weakened and the quality of the fruit will be inferior. We can recommend to the planter the following varieties:

**Abundance.** A nearly pinkish red Plum; ripens in mid-season. Thrives anywhere. A regular and heavy bearer. No orchard is complete without it.

**Bradshaw.** A very large and fine early Plum; dark violet-red, juicy and good. Trees erect and vigorous; very productive; valuable for market. The quality is excellent, and is destined to become one of the most popular of all Plums for canning, while its attractive color, good quality and shipping properties will cause it to be sought for as a market variety.

**Burbank.** Adapted to any soil and climate where any other Plum is grown, a profitable commercial Plum. Requires little care. Ripens in midseason.

**Lombard.** Medium; violet-red; juicy, pleasant; adheres to stone; valuable market sort; hardy; productive.

Bradshaw Plum.

**Monarch.** Fruit dark purple, covered with a thin bloom; large size specimens measuring six inches in circumference; flesh pale greenish yellow, parting freely from the stone, juicy, with a pleasant flavor. A leading market sort. Vigorous grower. September.

**Reine Claude.** Small, yellow-green; flesh pale green, melting, luscious and of best quality. Mid-August.

**German Prune.** Large, dark purple, sweet. One of the best for canning. Excellent for drying. Plant a few trees and dry your own for winter use. Ripens in September.

## PRICE OF PLUM TREES

2-yr., 9/16 in., 5 to 6 ft., 40c each;  
10 for \$3.50; \$32.00 per 100.

2-yr., Special Super-Size, 50c each;  
10 for \$4.50; \$40.00 per 100.

Prepaid at 5c per tree additional.

Monarch Plums.

Burbank Plums.

The Krider Nurseries, Middlebury, Ind.

Dear Mr. Krider:

I wish to thank you for the catalog that I have just received from your company. I am glad to see that your prices are still lower than they were last year, although I fail to see how you do it.

I must confess that when I sent you my order last year, I was very skeptical on account of your low prices, but after receiving my roses from you, I soon changed my mind. I have found your shipments to be prompt, your packing good and your stock of the best.

Roses are my hobby, I want to grow the best that I can afford. Owing to the fact that my garden space is very limited, I can't grow as many as I would like; I have at present about 70 roses, comprising some 50 varieties. Some of these roses came from some of our best known rose growers in the East and cost me a good deal more than you are asking for your roses, but I have yet to see a better stock than I have received from your company. It is indeed a pleasure to recommend your company to my friends.

Thanking you for your kind attention and wishing you success in the future, I am

Yours truly,

FRANK WALSH

61 Burgess Ave., E. Providence, R.I.

# Cherries

In planting a Cherry orchard care should be taken not to plant the trees too close together; select a dry soil for the Cherry, as a rule, although it is so hardy a tree that it will thrive in a great variety of soils, yet a good sandy or gravelly loam is best. Use same care in planting as other trees.

Orchardists are resorting more and more to the planting of varieties of Cherries that are strong pollenizers. Experience seems to demonstrate that such varieties as Black Tartarian, Bing, and Schmidt's Bigarreau are the best varieties to use for this purpose. Usually about one in every ten trees has proven to be the right proportion to use of these pollenizers.

Bing.

## Sweet Varieties

**Bing.** This grand new black Cherry was originated by Seth Luelling, of Milwaukee, Ore. Almost as large again as the Black Republican; flesh very solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipping and market variety. First of July.

**Black Tartarian.** Very large; bright purplish black; half tender; juicy, very rich. Tree a remarkably vigorous and erect grower, and an immense bearer. One of the most popular varieties in all parts of the country. June.

**Windsor.** Tree upright, and a rapid grower; fruit large, roundish, oblong; very firm and juicy; flesh pinkish and sometimes streaked; quality very good; a productive bearer; has attracted attention owing to its large size and dark color; almost black. July.

**Governor Wood.** Large, heart-shaped; light yellow, mottled light red, juicy, sweet and rich. Tree vigorous, productive; forms a round head. An old variety that is still a favorite in many regions.

**Napoleon or Royal Ann.** A beautiful Cherry of large size; pale yellow with bright red check; flesh firm, juicy and sweet; one of the best for market and canning.

**Schmidt's Bigarreau.** The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy, with a fine flavor. Fruit grows in clusters. It is an excellent shipper. July.

Napoleon or Royal Ann.

## PRICE OF CHERRY TREES

We sell 5 at 10 rate; 50 at 100 rate; 500 at 1000 rate. We sell 3-yr., 5-7 ft. Cherry trees, heavy planting size, for city trade at 75c each.

	Each	10	100
First class, 4 to 6 ft., No. 1 .....	\$0.40	\$3.50	\$30.00
First class, 3 to 4 ft., No. 1 .....	.30	2.00	20.00

Prepaid at 5c per tree.

NOTE: Due to the fact that Cherries are difficult to get started in a yard or vacant lot, we transplanted 10,000 last spring and we can supply 3-year trees, transplanted stock, in any variety listed in our catalog at a price of 75c each, prepaid. Any of these transplanted trees which die the first year will be replaced without charge.

## Duke and Morello (Sour)

**Early Richmond.** Everywhere the most popular. Tree strong, thrifty grower, making a large symmetrical head; fruit medium size, dark red, melting, juicy; slightly acid flavor and especially valuable for cooking purposes; tree an early and abundant bearer. Season last of May and first of June.

**Large Montmorency.** A fine, large, light red Cherry of the Richmond class, but larger and more upright grower, equally hardy and productive. Second only to Early Richmond in value. Ripens ten days later.

**May Duke.** A large, light red Cherry of most excellent quality. They are between a sweet and sour Cherry. Fine for canning. The tree is a strong, upright grower.

**English Morello.** Medium to large, roundish; dark red, nearly black when ripe; flesh purplish red, meaty, juicy, slightly astringent and good; very productive. August.

Montmorency.

# Standard Pears

The home orchard is not complete without Pears and they are a very profitable commercial crop in nearly all parts of the country. Pears will live on a variety of soils, but succeed exceptionally well in a hard clay soil. Tilling and fertilizing are advisable to a certain extent, but should not be carried far enough to produce too vigorous a growth. The quality of the Pear is much improved by picking before maturity and by proper ripening indoors.

Big profits are realized from Pear orchards—our trees produce first grade fruit.

## PRICE OF PEAR TREES:

**Select, 4 to 6 ft., 50c each; 10, \$4.00; 100, \$30.00. Select 3 to 4 ft., 30c each; 10, \$2.25; 100, \$20.00, prepaid at 5c a tree additional.**

**Bartlett.** Large size, with a beautiful blush next to the sun; buttery, very juicy and high flavored; tree a strong grower and a young and abundant bearer. August and September.

**Clapp's Favorite.** Large, ovate; skin thin, pale yellow, marked with crimson and fawn colored dots; flesh white, fine grained, juicy, sweet, buttery, rich and melting; very vigorous, upright grower, September. Very desirable in all sections.

**Seckel.** One of the richest and highest flavored Pears known; always in demand for desserts and luncheons and better known than any Pear of its class. The tree makes a somewhat slow but stout and erect growth. September and October.

Bartlett.

**Flemish Beauty.** One of the best of Pears on account of its hardness. The tree is a strong grower, an annual and abundant bearer, and is usually successful over a large range of country. The fruit is large; the skin pale yellow; the flavor is sweet and melting. Ripens in September and October.

**Douglas.** Fruit very large, handsome appearance, good quality and very few, if any seeds. One of the best keepers among winter Pears. Golden yellow; tree a good grower and very productive. Has never been known to blight.

Douglas.

Flemish Beauty  
Douglas

## Selected Grapes

**Hardy varieties—prime favorites everywhere.**

It is one of the oldest fruits in existence, yet the demand seems to grow every year beyond all expectations. There is in the Grape the good savory qualities that make it popular for eating as fresh fruit, and the uses to which it can be put in canning and jelly making are almost without number. Also the best of the rich wines are pressed from Grapes.

Grapes can be grown by anyone who has a garden or yard, and a little time to give to it.

**Price, No. 1 vines, except where otherwise noted, 15c each; doz., \$1.50; 100 for \$10.00. All vines heavy, 2-year-old. Special prices on Niagara and Concord. All prices prepaid.**

### Red Varieties

**Agawam.** Bunch large, shouldered; berry large, reddish brown, tender, vinous and of excellent flavor. Very vigorous and productive and one of the best of its class.

**Brighton.** Bunch large, shouldered; berries medium to large, round, dark red, tender, very little pulp, juicy, slightly aromatic and very good. Ripens early.

Agawam.

**Delaware.** The bunches are small, compact, are sometimes shouldered; berries are small with thin but firm skin; flesh juicy, very sweet and refreshing and of the best quality for both table use and for wine. Ripens with Concord or a little before; vine is hardy, productive and a moderate grower.

**Salem.** Bunch large and compact; berry large, of a light chestnut or Catawba color, thick skin, perfectly free from hard pulp; very sweet and sprightly with a most exquisite aromatic flavor; as early as Worden; keeps well.

### White Varieties

**Niagara.** Occupies the same position among the white varieties as Concord among the black. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. Skin thin but tough; quality much like the Concord. **Each, 10c; 100 for \$6.00.**

**Pocklington.** Seedling from Concord. The vine is thoroughly hardy both in wood and foliage; it is a strong grower, never mildews in vine or foliage. The fruit is a light golden yellow, clear, juicy and sweet to the center, with little or no pulp; bunches very large, sometimes shouldered; berries round, very large and thickly set. Ripens with the Concord.

Niagara.

### Black Varieties

**Campbell's Early.** A new, very large and fine early black Grape. Strong, vigorous, hardy vine with thick, healthy leaves; clusters very large, usually shouldered, compact and handsome; berries large, nearly round, black, rich, sweet, very good; skin thin; seeds few and small, parting easily from the pulp; good shipper; ripens very early but remains sound on vines for many weeks. This makes it one of the most satisfactory and profitable market sorts to grow.

**Concord.** One of the most popular and reliable varieties we possess; bunch large, compact and shouldered; berry large, round, almost black with blue bloom, juicy, buttery and very sweet. **Each, 10c; 100 for \$6.00.**

**Moore's Early.** A large Grape, ripening a week earlier than Concord; good grower; berries large, good quality, and makes a moderate yield; very valuable as an early Grape.

**Worden.** Seedling of the Concord which it greatly resembles in appearance and flavor, but the berries are larger. The fruit is said to be better flavored and to ripen several days earlier. These qualities will give it the foremost rank among native Grapes.

**NOTE.—1-year, No. 1 vines of Concord and Niagara at 6c each; \$3.00 per 100.**

Concord.

Eldorado Blackberries.

## Blackberries

Blackberries do best on good soil, clay and sand mixture preferred, set in rows 6 feet apart and 2 feet apart in rows. 3,500 are required per acre. Blackberries are in great demand now at 20c per quart. Give the boy a chance to try his mettle by letting him start a patch. He won't have any desire to leave the farm if he is successful in raising fruit. The varieties here given are perfectly hardy and will prove a source of profit. Beware of the Erie, Wilson, Jr., Lawton and their like; they will not stand our winters.

**Eldorado.** Largest hardy Blackberry grown. Free from rust and the best money maker here. Berries of the Eldorado bring 50c per crate more than Snyder on the local market. **50c per doz.; \$3.00 per 100; \$18.00 per 1000, prepaid.**

**Blowers.** Very large, finest flavor, and jet black. Canes grow upright, perfectly hardy. This variety is one of the most productive under cultivation. Begins to ripen in July and continues late. Sells for the highest market price. **75c per doz.; \$3.00 per 100; \$20.00 per 1000, prepaid.**

## Currants

**Fay's Prolific.** Berry averages large, juicy and less acid than Cherry; bush not quite so strong a grower. **10c each; \$6.00 per 100, prepaid.**

**London Market.** Bush vigorous, upright; fruit medium to large; color dark red, with sprightly acid flavor; very productive. **12c each; \$6.00 per 100, prepaid.**

**Perfection.** The latest introduction, being a cross between Fay's Prolific and White Grape, combining the best qualities of both. Berry bright red and large. The clusters average longer and the size of berry is maintained to the end of the bunch. Its quality is said to be superior to anything on the market today, being a rich, mild sub-acid flavor with plenty of pulp and few seeds. **15c each; \$10.00 per 100, prepaid.**

**Cherry Currant.** Red, sub-acid, very large. Is prolific and a good variety for home use or market.

**2-yr. vines, 15c each; \$10.00 per 100, prepaid.**

**Wilder.** Leading Currant in Southern Michigan where it is largely planted for commercial uses. **2-yr. vines, 15c each; \$10.00 per 100, prepaid.**

**Red Cross.** A strong growing variety; exceedingly productive with long clusters. The Currants are of large size and far sweeter than the ordinary varieties. **2-yr., 10c each; \$8.00 per 100, prepaid.**

Perfection Currants.

## Gooseberries

This fruit is very useful for cooking either green or ripe, and is used for canning extensively. Requires the same cultivation and treatment as currants. The surest method to prevent mildew is to plant thickly in the rows and mulch deeply, six or more inches, with straw, tan bark, coal ashes, etc. Plantations thus treated have borne large crops for twenty years. The mulch retains moisture in the driest weather; the few weeds that push up are easily pulled, and the fruit is large and more evenly ripened.

**Price, all varieties: 20c each; \$10.00 per 100, prepaid.**

**Downing.** Fruit large, round, light green with distinct veins, soft, juicy and fine flavored; vigorous and productive; smooth skin; one of the best.

**Houghton.** Medium size, pale red, sweet and juicy; vigorous grower, abundant bearer and free from mildew.

**We sell 50 at 100 rate; 500 at 1000 rate.**

Downing Gooseberries.

### FEDERAL QUARANTINE ON CURRANTS AND GOOSEBERRIES

The Government has established a quarantine, forbidding nurserymen from shipping Currants and Gooseberries into Nebraska, the Dakotas, Kansas, Oklahoma, Texas, and all other states west of this line.

Premier.

**Premier** P. The best Strawberry grown in our nursery. A money-making, frost-proof Strawberry; hardy, productive, very beautiful and attractive. Succeeds everywhere, never fails to produce a big crop every year. There is a greater demand for Premier plants for commercial planting than of any other early variety. One grower is known to have made over a thousand dollars an acre from Premier. An excellent shipper and canner. Sells for fancy prices on the market. Our Premier plants are guaranteed to be genuine. **12 for 25c; 100 for 75c; 1000 for \$5.00, prepaid.**

# The Big 4 of all Strawberries for Central States

All other  
kinds  
would be  
inferior

Don't  
Experiment

Be safe  
and be  
satisfied

**Senator Dunlap** P. Perhaps no other Strawberry is so favorably known throughout the country generally as the old reliable Senator Dunlap. It enjoys the distinction of producing full crops in a wider range of soil and climate than almost any other variety. No wonder then, that the growers in nearly every state in the Union order more and more Dunlaps every year. Dunlaps produce big crops unfailingly. Berries large, handsome dark red color. A splendid shipper and a ready seller. Very attractive appearance. Fine for both home and commercial purposes. Taking all into consideration, Dunlaps are hard to beat. **Special price, 25c per 25; 60c per 100; \$3.50 per 1000, prepaid.**

**Kellogg's Big Late** Extra late pistillate (female). Best late Strawberry ever put on the market. Has received more compliments and praise than any other extra late variety on record. Absolutely dependable. Big grower, big producer of big berries. No variety either early or late will produce more berries or better berries than Big Late. As firm as any berries that ever grew. A splendid shipper and a wonderful keeper. Should be mated with some late bi-sexual (male). Fruits extra well in either narrow or wide matted rows. This berry is superior to Cooper in every way. It has healthy foliage and is a better flavored berry all around, fully equal in size to Cooper. We have discontinued growing Cooper in favor of Kellogg's Big Late. If you want late berries that will make you the money on your investment, plant Big Late fertilized with Pearl. **25 for 50c; 100 for \$1.00; 1000 for \$5.00, prepaid.**

Senator  
Dunlap.

We can furnish PEARL at same prices as Kellogg's Big Late.

Mastodon.

## Mastodon

The Marvelous Everbearing  
Strawberry

We have been growing Everbearing Strawberries for 12 years and have tried 12 varieties. We have eliminated all but one. This has given excellent results. It will yield as much as the common varieties in June and will produce well all summer and fall.

The reports we have from the actual growers of Mastodon sound almost unbelievable. Had we not seen field after field of this wonderful berry in bearing we would hesitate to tell you of its incredible productivity.

You might think that berries of such size might be inferior in color and flavor. Not so. Many of our patrons have exclaimed at the fine flavor and rich color of these berries, even in October and November. A shortcake at Thanksgiving is not unusual for the heavy foliage protects the berries from even hard frost.

Plant this berry for commercial use. It is the greatest fall money maker. We think that after this year we will catalog no other everbearer. That is our opinion of it.

Our stock came direct from the originator. In fact he brought us the plants himself in his Ford auto. Therefore, we know that your plants are genuine unmixed Mastodon. Special price while they last. **50c per doz.; \$1.50 per 100; \$10.00 per 1000, prepaid.**

We can

## THE QUALITY OF STRAWBERRY PLANTS

In looking through the many catalogs you receive you will notice that many claim to be the largest growers of plants, and their plants are the best grown. We do not claim to be the largest grower of plants or that they are better than some others, but we have bought plants from some that make such claims in different parts of the country and have never received any better than we send out. In some cases we had to throw away half of the plants as they had the crowns broken or were so small that they were not worth planting. We guarantee the plants we send out to be as large and as fine as you get anywhere (no matter what you pay), and to be up in as good condition and if grown side by side, under like conditions, that they will produce as much and as good fruit.

# EVERGREENS for Foundations

Featuring the North Wing of Our Office

## Juniperus - Junipers or Cedars

Trees are generally pyramidal in shape and hardy everywhere. The needles are short and generally bright on the under side. They transplant kindly and should be more generally used. They are nearly all native of the northern country and more handsome in cultivation than in their native soil.

**Virginiana** (Red Cedar). A well known native tree; varies much in habit and color of foliage; very attractive in winter when golden bronze of the young growth contrasts with the dark green of the older.

**Glaucia** (Blue Cedar). Similar to Red Cedar in form and a soft, blue-green color; closely columnar.

**Hibernica** (Irish Juniper). Of slender columnar habit with glaucous green foliage. Useful for formal planting.

**Pfitzeriana**. (Pfitzer Juniper). A graceful, broad, pyramidal Evergreen with sweeping fronds of gray-green foliage, making in time a distinctive, beautiful tree.

**Sabina** (Savin Juniper). Especially suitable for hillside planting or among rocks; like a prostrate shrub in habit, and useful for all low planting. The foliage is deep green and unchanging in its color.

## Arbor-Vitae

**American**. One of the finest evergreens for hedges. It grows rapidly and soon forms a most beautiful hedge; very dense. Of course it is never adapted to turn stock, but it forms a most desirable and ornamental screen to divide the lawn from other parts of the grounds.

**Pyramidalis**. An exceedingly beautiful, bright variety, resembling the Irish Juniper in form; foliage a deep green, color well retained in winter; perfectly hardy. should have a place in every collection.

**Globosa**. Forms a dense, low, globe shape. A beautiful evergreen. Particularly fine for formal plantings.

**Hovey's Golden**. A small tree, globular in form; foliage light green with a golden tinge and very compact; hardy.

## Pines

**Mugho** (*Pinus mughus*). This is an excellent dwarf Pine, being globe-shaped and erect branching when the new growth, which seems like miniature candles, completely covers the bush.

## Retinispora

**Pisifera** (Pea-Fruited *Retinispora*). Erect branches, pendulous at the tips; foliage feathery, light green, glaucous beneath.

**Plumosa** (Green *Retinispora*). Densely conical, with fernlike leaves of bright green carried on erect, plummy branches.

**Plumosa aurea** (Golden *Retinispora*). One of the few really golden evergreens. The color of the young growth contrasts strongly with the darker shade of the older foliage. Striking and useful in many ways.

**New Japanese**. Beautiful evergreen for corner circles. Grows spreading and carries a delightful color all summer.

**NOTE:** Write for prices on large specimen evergreens, 6 to 8 ft. high. We have them.

## Extra Special

Any of above Evergreens will be furnished in 5-year, twice transplanted, 12 to 18 in grade at

50c each } Post-  
3 for \$1.00 } paid

Or in heavy 6-year, three times transplanted, suitable for immediate effect at

\$2.00 each; 3 for \$5.00  
or 6 for \$9.00 By Express,  
Not Prepaid.

The first grade should be cultivated one year in the garden and by fall will be ready to use around the home.

Any evergreen on this page may be selected at these prices.

## EVERGREENS for the Rockery

Featuring a Rockery in Our Old Mill Garden, on Our Grounds at Middlebury, Indiana

**MUGHO PINE.** A nicely trained tree of from 10 to 12 inches tall, 5 years old and 3 times transplanted. This is a most desirable dwarf pine, rich in color, globular shaped and ends of all branches resemble the Christmas tree with many upright candles.

**CREeping JUNIPER.** Deep blue in color and shoot their spire-shaped branches horizontally.

**GLOBE ARBOR-VITAE.** The beautiful "Hovey's Golden," globular in form with rich green foliage fringed with golden color, very compact.

**BIOTA AUREA NANA.** No evergreen gets quite the attention of this lovely tree. These are grafted, twice transplanted, and from 9 to 12 inches high. They are immediately beautiful.

**DWARF YEW.** This beautiful evergreen adds much color in the rockery. Very compact grower.

**MAHONIA AQUIFOLIA.** An evergreen shrub, very desirable. Leaves become very waxy in the winter and the red berries also add color.

**PFITZER JUNIPER.** This is also a fine spreading Juniper that is valuable among rocks.

**BOXWOOD.** Hardy evergreen. The plant that made Mount Vernon famous, where it is used extensively.

*The Krider Nurseries Co.,  
Middlebury, Indiana.*

*Rhineland, Wis.,  
July 5, 1933.*

Gentlemen:

*I have purchased from you people many things, and among them was a Korean Spiraea which has turned out to be a swell bush, and a fine bloomer; also two Purple Wisteria which are doing fine for the first year, but the two Weigela Floribunda are my favorite bushes. I have bushes and flowers on both sides and across my lot, which is 60x120 ft., and although I have many many kinds of shrubs, I believe the Floribunda has them all beat.*

*Yours truly,  
DR. W. D. WRIGHT.*

# Black Raspberries

## We Recommend 3 of Equal Merit

**New Logan.** Of Ohio origin, this new blackcap is gaining much favor among berry growers. Its quality and productiveness are excellent, probably equal to Cumberland, but its paramount value lies in the week or more earlier cropping season.

**Cumberland.** One of the largest blackcaps and the best for mid-season market. Berries are jet black in color, firm and of good quality. It is a very valuable variety. Does well in one location for 3 years then is inclined to anthracnose. Should be renewed every 3 years.

**Quillen.** This is the greatest variety of black Raspberry grown in the United States today. Ripens about two days later than Cumberland; is the largest blackcap that has ever been grown here. It originated south of Indianapolis, a cross between Cumberland and Hopkins. We highly recommend this variety for several reasons. First, it has never shown any disease in the eight years we have had it on our grounds—no anthracnose, no mosaic. The original field planted eight years ago is in a clean, healthy condition. We are introducers of this berry to the trade. We purchased the original strain 10 years ago and have sold it in every state in the Union. If you want the best get a start with Quillen.

Quillen Raspberries.

# Red Raspberries

## We Recommend 3 of Equal Merit

**CHIEF, Earliest of all LATHAM, Main crop ST. REGIS, For low, moist ground**

**CHIEF.** A new product from Minnesota achieved after 14 years experimenting, with the purpose of replacing the old King by a superior type of Latham breeding. Chief will not rival Latham, but supplements it by ripening 10 days earlier, and so holding that wonderful type for picking an extra long season. In fact, Chief fills that deplorable gap for fresh table fruits between strawberries and the other Raspberries. Bright red, "no crumbling", ships well, tastes delicious, and pays its way with extraordinary crops.

**LATHAM.** The Finest Red Raspberry Ever Produced. There are so many fine qualities in the Latham that we never know where to start. First, it is extremely large in size, larger than all of the common reds, and when ripe it is a beautiful bright red color. Then, in addition to this unusual size, it is the hardiest of all Raspberries, giving fine results even to the Canadian line. Its flavor is truly delicious and the crop is remarkably heavy, sometimes extending over a month. In every way, the Latham stands supreme. Prof. C. V. Holsinger, Extension Professor of Horticulture of the Iowa State College, Ames, Iowa, says: "I only hope you will be able to grow plants enough to put this berry in the hands of as many people as possible." Latham Raspberries are a beautiful, thrifty lot, guaranteed to be entirely free of the mosaic. They have been rigidly inspected three or four times by experts who pronounced them supremely healthy, and mosaic-free. Order your wants early.

**ST. REGIS.** One of the most valuable of all late introductions in the line of Red Raspberries; the habit of growth is a bushy nature; will produce berries that first year in the fall, and a full crop the following spring, and again in the fall.

St. Regis resembles the Early King; its fruit is similar to that variety in quality, flavor and appearance. In September, long after Raspberries are out of season, St. Regis will bear a full crop of fruit which commonly sells for seven to eight dollars for a 24-pint crate. If you have a market at hand where you can dispose of the fruit, you will find St. Regis a very profitable investment when grown on a commercial scale. If you have not the time or the ground to grow St. Regis for market, be sure to plant at least a few bushes in the garden and keep your table supplied with all you can use.

**STAR OF PERSIA**

This is the only true blue Water Lily we have ever seen. Above is an exact cut made from one in bloom in our pools. Each, \$2.00, postpaid.

# Free!

This NEW Beautiful  
Blue WATER LILY  
with every  
**\$7.50** Collection  
of our magnificent  
Water Lilies listed below

**NOTE:** This Lily may also be selected as a premium on any \$10.00 order of any items listed in our catalog.

## Water Lilies and Water Plants

Water Lilies are one of our leading specialties. We have constructed many pools the past two years and have them well stocked with the following hardy varieties. The stock we offer our customers consists of well established plants which we guarantee to bloom six weeks after planting. May shipment. Do not confuse with cheap bulbs.

**Alba Grandiflora.** Pure white, large blooms and a rampant grower, very fragrant. The best of all white varieties. **Each, \$1.00, postpaid.**

**Chromatella.** Highly popular yellow variety, extra large blooms and three to five buds in bloom all the time. Very popular. **Each, \$1.00, postpaid.**

**Rose Arey.** Beautiful fragrant variety with a color so dark pink that it is classed in the red varieties. Excessive bloomer, very fragrant. **Each, \$1.00, postpaid.**

**Gloriosa.** This is a grand Water Lily. Leaves and flowers only about one-half the size of the others but the color blood-red and the fragrance equal to the sacred lilies of the river Nile. **Each, \$1.50, postpaid.**

**William Faulkner.** The best Red Water Lily ever introduced. Blooms abundantly throughout the summer and is larger than Gloriosa. **\$2.00 each, postpaid.**

**Paul Hariot.** The best peach-colored Lily on the market. Good bloomer. **\$1.50 each, postpaid.**

### Extra Special on Water Lilies

One each of six varieties listed above, in blooming size clumps, postpaid, for \$7.50. \$10.00 value. With the Star of Persia as a premium.

The above illustration was made from Lilies in bloom in our pools, summer of 1931. Varieties shown are Alba Grandiflora, Chromatella, Rose Arey, and Gloriosa.

# KRIDER'S "Money-Savers"-Bargains Evergreens for HOME At Less Than the

## A Profitable Hobby

which makes it possible for you to develop fine trees for your home grounds at a minimum cost.

Grand Rapids, Mich.,  
Feb. 2, 1933.

The Krider Nurseries  
Middlebury, Indiana

Gentlemen:

Will you kindly send me your 1933 catalog. Last spring I took advantage of a rose offer amounting to \$1.60 and I have never had so much pleasure from such a small sum as these three roses from Krider's. Etoile de Hollande, during the week of September 5th, was showing four beautiful red roses about five inches across. I know now that money spent for Krider's roses is spent wisely.

Yours very truly,

ADA Z. LULOFFS,  
839 Baldwin St., S.E.

St. Joe, Louisiana  
Aug. 28, 1933

Dear Sirs:

Please send catalog. The stock bought from you last spring was surely fine.

A. M. SMITH

Mt. Pulaski, Ill.  
April 20, 1933

Dear Sirs:

We are writing to tell you the order was delivered to us this morning in good shape. We sure are well pleased with it. The plants were fine.

CHARLES WELLER

### All these trees are

heavily rooted and just ideal for setting out on your home grounds. They are 2 and 3 times transplanted.

Above illustrations are from actual photographs of the trees we send you.

Fort Worth, Texas,  
July 20, 1933.

Dear Sirs:

The plants I purchased from you this spring were such sturdy ones, and in spite of the extreme heat and drought we are having, they are doing fine.

The nurserymen here discourage people about planting perennial phlox in this section; however, I mulched my plants well with lawn clippings, water them good once a week and they have bloomed abundantly.

Very truly yours,  
MRS. ETHEL WOMBLE.

Nashville, Tenn.  
Received the roses and phlox in perfect condition, also the extra rose.

Thanks for promptness.  
MRS. E. V. GRAEF

Conklin, Mich.  
Got my nursery stock O. K. and everything is fine. Thank you.

MRS. H. GRAFTEMA

# BLAZE *Everblooming Paul's Scarlet Climber*

Plant Patent No. 10.

**N**EVER in all the history of the Rose industry has there come to our attention a Rambler Rose with the everblooming qualities of the new Rose Blaze. This has all of the appearance and color of the Paul's Scarlet Climber and blooms continuously throughout the summer, making a Rose that has filled a long-felt want in the nursery trade.

The originator says of it as follows: "Seedling of Paul's Scarlet Climber and Gruss an Teplitz. A marvelous, hardy, everblooming scarlet-red Rose, combining the bloom and growth of Paul's Scarlet Climber with the everblooming character of Teplitz. Very vigorous. Seldom out of bloom. At this writing (August 15), plants in our test garden are covered with bloom from bottom to top. Can be pruned very low for bedding, medium for shrub use, or trained as a climber."

Every Rose will be protected by a label herewith illustrated and protected by a plant patent issued by the United States Government. None genuine without this label.

**Each, \$2.00  
Dozen,  
\$20.00**

(Postpaid)

**REMEMBER,** any \$2.00 item in our catalog may be selected as a premium on a \$10.00 order if received before April 1st, 1934.
